*This Report*

Describes the 1979 survey administered to enlistees at all 67 Armed Forces Entrance and Examination Stations (AFEES) immediately after enlistees were sworn in. The survey was one of several interrelated collection efforts of the Rand-DoD Survey Group, a component of the Rand Manpower, Mobilization, and Readiness Program. The first four sections of the note describe the rationale of the survey, sample and administrative procedures, and data-processing procedures, especially those with analytic implications. Preliminary information about response rates is also included. The codebook sections reproduce each question in the two questionnaires used in the spring 1979 survey, together with every permissible response category. Variable-specific explanatory notes also appear. The files for this survey contain a total of 14,751 records, 7419 for Form 1 and 7332 for Form 2. (See also N-1606, N-1453, N-1165.) 227 pp. (Author)

PREFACE

This note documents a study conducted under Task Orders 79-V-1 and 80-V-1 as part of the Rand Manpower, Mobilization, and Readiness Program, sponsored by the Office of the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics)-- OASD(MRA&L).

With manpower issues assuming an ever greater importance in defense planning and budgeting, the Rand study program seeks to develop broad strategies and specific solutions for dealing with present and future defense manpower problems. The achievement of these goals requires the development of new methodologies for examining broad classes of manpower problems, as well as specific problem-oriented research. In addition to analyzing current and future manpower issues, this study program seeks to contribute to a better general understanding of the manpower problems confronting the Department of Defense.

The 1979 DoD Survey of Personnel Entering Military Service is one of several interrelated collection efforts of the Rand-DoD Survey Group, a component of the Rand Manpower, Mobilization, and Readiness Program. The survey group has designed and administered two other military life cycle surveys: the 1978 DoD Survey of Officers and Enlisted Personnel, which focused on the in-Service population, i.e. the men and women on active duty in the four Services,\* and the 1979 Reserve Force Surveys, which dealt with enlisted personnel and officers in the Army Reserve and Army National Guard.\*\* Future surveys may include other military populations, e.g., reservists in the Navy or Air Force, and other junctures in the military life cycle, e.g., separation decision.

The 1979 DoD Survey of Personnel Entering Military Service was administered to enlistees at the Armed Forces Entrance Examination Stations (AFEES) immediately after the enlistees were sworn in. Because of the large number of questions asked, and to account for certain

possible differences among enlistees, the survey was administered in two phases, Wave 1 and Wave 2. This note provides the documentation for data collected in the 1979 DoD Survey of Personnel Entering Military Service: Wave 1. The basic reference document for users of the data, the note contains substantive and technical information about the survey and the data files required for planning tabulations and other analyses.

SUMMARY

This note provides documentation for data collected in the 1979 DoD Survey of Personnel Entering Military Service, one of several interrelated data collection efforts of the Rand-DoD Survey Group, a component of Rand's Manpower, Mobilization and Readiness Program. The survey group's objectives include the systematic examination of, and provision of policy-sensitive information about, the military life cycle. The military life cycle includes both reserve and active force enlistment decisions, experiences, career orientations, responses to policies that affect military members and their households, and decisions to leave the military.

The 1979 DoD Survey of Personnel Entering Military Service was administered to enlistees at the Armed Forces Entrance Examination Stations (AFEES) immediately after they were sworn in. The purpose of the survey, referred to as the 1979 AFEES Survey, was to provide the Office of the Secretary of Defense (OSD) and the military Services with data that can be used in policy formulation and research, especially in the areas of accession and first-term attrition of Active Force enlisted personnel. It is the only survey administered to personnel in all four Services at an identical point in their military career, i.e. immediately on enlistment.

The survey was designed to be administered in two questionnaire variants, one focused primarily on the enlistment process, the other on identifying possible predictors of attrition. Both variants contain a common set of items designed to collect background information about the individual. In addition, to study possible differences between individuals who enlist at different times of the year, the survey was administered in two phases, 6 calendar months apart. The first phase of the survey, Wave 1 (Forms 1 and 2), was administered in March-April 1979; the second phase, Wave 2 (Forms 3 and 4), was administered in September-October 1979. Data collection took place at all 67 AFEES stations.

### SAMPLE DESIGN AND RESPONSE RATES

Most of the information collected in the 1979 AFEES Survey relates to the enlistment decision process and to the characteristics and experiences of the individual prior to enlistment. To take maximum advantage of the enlistees' recall of information, the questionnaires were administered as close to the enlistment decision point as possible and before they had military experience. These considerations, combined with a legal requirement prohibiting survey of individuals until after they have been sworn into the Armed Forces, led to a design that limited respondents to men and women without any prior military service who were Active Force accessions and who would be interviewed as soon as possible after the the enlistment decision point. In practical terms, this meant interviewing individuals who were going into the Delayed Entry Program (DEP) or who were being processed and sent directly to training.

To simplify administration and provide sufficient cases for analyses of various subgroups, e.g., Service, region, recruiting district, and educational group, the design called for interviewing 100 percent of the survey-eligible respondents during two designated 20-day periods. We estimated that 18,000 to 25,000 survey-eligible individuals would be processed during each of the 20-day periods. Since we planned to administer two somewhat different questionnaires simultaneously, the expected samples for each questionnaire were simply 50 percent of the survey-eligibles at each AFEES during the 20 days. The Wave 1 survey was actually conducted in the period between 18 March and 18 June 1979, depending on the AFEES station, and a total of 15,219 questionnaires were returned.

The instructions for sample selection were straightforward. Rand monitored the survey administration through periodic telephone calls to the AFEES. Preliminary indications suggest, nevertheless, that some AFEES did not always follow the instructions for collecting data and identifying respondents.

To verify the sample composition, the sampling criteria were applied to the U.S. Army Recruiting Command (USAREC) accession records for all individuals processed between March and June. A post hoc sample was then selected by using the actual survey administration dates for each AFEES. This sample of 26,452 individuals should include the

accession record of each individual who completed a questionnaire as well as of each who was survey-eligible but did not return a questionnaire.

Using information in the questionnaires, we tried to link the 15,219 questionnaires with the USAREC records. The linkage identified 468 questionnaires that were completed by ineligible individuals, and these were removed from the files. The response rate was 56 percent. If current analysis reveals no substantial differences between the characteristics of those who returned surveys and those who did not, the data can be used without weights or additional adjustments. If a bias is found, corrective measures will have to be taken.

#### CONTENTS OF THE DATA FILES

The 1979 AFEES Survey is composed of four questionnaires: Forms 1 and 2 administered in Wave 1 (spring), and Forms 3 and 4, administered in Wave 2 (fall). The questionnaire development process for the survey was guided by two major considerations: (1) relevance of the items to important policy issues relating to accession and first-term attrition and (2) accommodation of the research needs of as large a group of potential users as possible.

It became apparent in designing Wave 1 pretest questionnaires that even a minimum set of analytic requirements could not be met in one questionnaire. Such a questionnaire would have required well over an hour of each respondent's time. To decrease respondent burden, two questionnaires were designed, with many of the items included in both. In addition to the common set, items designed to collect detailed information about the enlistment process were clustered in Form 1. A group of items identified as possible predictors of attrition, together with items asked specifically of female enlistees, were clustered in Form 2. The wave 2 questionnaires continued this broad substantive distinction between the two forms: Form 3, like Form 1, emphasized enlistment; Form 4, like Form 2, emphasized attrition and issues related to women.

#### DATA PROCESSING AND DATA LIMITATIONS

The questionnaires designed for this survey were self-administered forms suitable for subsequent processing by optical scanning. Most of the questions were followed by a set of preprinted responses. To answer the questions, the respondent was required to darken the "bubble" next to the response that best indicated his answer. Other items required the respondent to enter a multidigit number in a set of boxes by darkening bubbles to correspond to each digit. The optical scanner reads every mark the respondent makes in the prescribed places on the forms. The data files described in this note represent the data after they have been transformed from the exact responses read by an optical scanner to usable responses.

The optical scanning contractor, the Intran Corporation, was given detailed specifications for code assignment, handling of incomplete or illegible data, file formats, etc. Every attempt was made to ensure that the information on the tape would reflect all of the information provided by the respondent on the questionnaire, even where the respondent gave incomplete or extra data. Decision rules were provided for scanning responses to questionnaire items in which the respondent marked more than one answer but for which only one answer was required. Codes assigned to the optical scanning bubbles were chosen to be consistent with some of the major statistical packages currently being used by analysts. Finally, to the extent feasible, codes were selected to be consistent across items.

Intran returned the files containing the initial coding (scanning) to the Defense Manpower Data Center (DMDC). DMDC systematically processed the data files so that every response field of the survey record for every respondent contained either a well-defined response code or an audit code.

In the recoding, special attention was paid to grid responses that were either erroneously left-justified or that contained blanks. The raw marginal distributions for gridded items indicated that machine algorithms could not easily be developed for adjusting the data without extensive review of the errors; all such responses were assigned a

special audit code. Furthermore, upper and lower boundaries were also established and audit codes assigned to grid responses outside a plausible range.

The assumptions made about the handling of data in grids and extra data are as follows:

1. Incomplete grid entries do not appear on these files, i.e. they have been assigned audit codes. We assumed that data reconstruction, if possible, would not change the basic distributions of these continuous variables.
2. Ranges have been defined for continuous variables, i.e. responses in grids. The ranges for each variable are defined in Sections V and VI. A conservative approach was used in defining ranges; the range selected is slightly broader than the available information, and preliminary analysis indicates that it should be.
3. Multiple entries have been resolved in variables for which a definite criterion for selection could be established. Data resulting from such a resolution are identified by special flags, enabling analysts to eliminate information coded through this method.
4. Extra data resulting from skip pattern errors have been retained on the files. Possibly extraneous data provided by the respondent were not edited out by assigning them a "not applicable" code. The "not applicable" code was assigned only when the respondent left an item blank on the basis of an instruction.

The two last sections of the note reproduce the questions from Forms 1 and 2, together with all of the technical information required for using the data. Definitions of all the codes are included, as well as notes to aid in item interpretation.

ACKNOWLEDGMENTS

This note reflects the work and dedication of many individuals. We welcome the opportunity to acknowledge them here.

The director and staff members of the Accession and Retention Directorate, OASD(MRA&L)-Military Personnel Policy, provided much needed substantive guidance and administrative support for the conduct of this survey. A. J. Martin, the director, together with Fred Suffa and Eli Flyer, shared their many years of experience working with entrants into the military with us. James Ginter of Ohio State University, a consultant to the Directorate, provided information and ideas related to military advertising. Col. John Aldrich was our liaison with the Armed Forces Entrance Examination Stations (AFEES) for data collection.

Members of the Joint Market Analysis and Research Committee (JMARC) reviewed questionnaire drafts and offered many valuable suggestions. We would especially like to thank Ron Liveris. Special note should be made of the AFEES commanders who cooperated in the conduct of questionnaire pretests, arranged for informal discussions with enlistees, and were responsible for the actual data collection.

Several members of the Defense Manpower Data Center (DMDC) should be singled out. Kenneth C. Scheflen, chief, DMDC, solved many of the organizational and logistical problems of conducting the research. Zietta Ferris supervised all of the activities connected with the receipt and editing of questionnaires, ably assisted by Kathi Dozier, Mary T. Willis, and Geni Kabiu. Elsie Elster provided keypunching support for both the questionnaire pretest and subsequent document control activities. Helen Hagan was responsible for all aspects of file manipulation and sample verification and wrote and implemented all of the software. In addition, her sound substantive and technical suggestions, combined with patience and humor, greatly simplified and improved the work. She was assisted in some phases of the processing by Gwen O'Neill, Jim Blackledge, and Ian Nelson.

We would like to mention the work of Dennis Dillon of the Intran Corporation, the optical scanning contractor responsible for the initial processing.

Our colleagues at The Rand Corporation shared their insights and experience with us in the development of the questionnaires and overall design of the survey. We would especially like to acknowledge the efforts of Cheryl Cook and Sue Berryman, whose work in issues related to women's role in the military played a major role in the questionnaire design. In the development of the questionnaires and administrative procedures, we relied heavily on and greatly profited from Jennifer Hawes's broad range of survey research experience. Deborah Hensler, William P. Hutzler, Robert L. Roll, and Jane Sachar provided helpful comments and suggestions in both the design phases of the survey and in reviewing the present document. Robert Crain's review of the final version of this note was especially useful.

As we began work on this document, we depended on the technical expertise and experience of Rand colleagues. Maureen David and Marie Sanchez were responsible for converting the optical scanning questionnaires into the printed forms in Section V and Section VI and for typing this note. The entering of code definitions, notes, and other technical information into the codebook was the responsibility of Sally Rich, who also cross-referenced the questionnaires and resolved a host of technical problems. The production of the codebook section was completed under the supervision of Diane Reingold in Rand's Survey Production Unit. Special note should be made of Debby Wesley, who carried much of the responsibility for producing Sections V and VI.

The authors are solely responsible for any errors or omissions that may remain.

## I. INTRODUCTION

The 1979 DoD Survey of Personnel Entering Military Service is one of several interrelated data collection efforts of the Rand-DoD Survey Group, a component of the Rand Manpower, Mobilization, and Readiness Program. The survey group's objectives include the systematic examination of, and provision of policy-sensitive information about, the military life cycle. The military life cycle includes both reserve and active force enlistment decisions, experiences, career orientations, responses to policies that affect military members and their households, and decisions to leave the military.

The survey group has to date, designed and administered three military life cycle surveys:

- o The 1979 DoD Survey of Personnel Entering Military Service, administered to enlistees at the Armed Forces Entrance Examination Stations (AFEES) immediately after the enlistees were sworn in
- o The 1978 DoD Survey of Officers and Enlisted Personnel, which focused on the in-Service population, i.e. the men and women on active duty in the four Services
- o The 1979 Reserve Force Surveys, administered to enlisted personnel and officers in the Army Reserve and Army National Guard.

Future surveys may include other military populations, e.g., reservists in the Navy or Air Force, as well as other junctures in the military life cycle, e.g., separation decision.

The purpose of the 1979 DoD Survey of Personnel Entering Military Service, referred to as the 1979 AFEES Survey, is to provide the Office of the Secretary of Defense (OSD) and the military Services with data that can be used in policy formulation and research, especially in the areas of accession and first-term attrition of Active Force enlisted personnel. It is the only survey administered to personnel in all four Services at an identical point in their military career, i.e. immediately on enlistment. At the present time, it is the only vehicle for collecting detailed information about the characteristics of the men and women who enlist in the military and for providing extensive information about the events and motivations related to their enlistment.

Because the survey serves several purposes and asks a large number of questions, we decided to administer it in two questionnaire variants. In addition, to study possible differences among individuals who enlist at different times of the year, we administered the two survey questionnaires in two phases, 6 calendar months apart. The first phase of the survey, Wave 1 (Forms 1 and 2), was administered in March-April 1979; the second phase, Wave 2 (Forms 3 and 4), was administered in September-October 1979. Data collection took place at all 67 AFEES.

The data collected in this survey are documented in two Rand notes, each dealing with one wave of the data collection. This is the first note; a second note, N-1606-MRAL (forthcoming), by the same authors, describes Wave 2. A third note will describe the samples, compare the survey samples to the population from which they were selected, and analyze the response rates. It will also compare the characteristics of respondents who completed questionnaires to the characteristics of the military population eligible for the survey.

This note is the user's manual and codebook for the two Wave 1 questionnaires (Forms 1 and 2). It summarizes the sample design and selection procedures, provides preliminary information about response rates and general information about the survey questionnaires and their processing, and describes the data in detail. As the basic reference for all users of the data, this note contains information with which to interpret coded responses to each question and helps users plan tabulations or other kinds of analyses. In addition, it provides technical information about the structure of the data files, number of records, general format, etc.

Section II of this note summarizes the sample design and selection procedures and currently available information about response rates. Section III discusses the substantive contents of Forms 1 and 2.

Section IV describes the operations performed on the data between the time the questionnaires were returned from the field and the existence of the actual data files. The discussion of data recoding, editing, and the assignment of audit codes to response fields is significant in that some of the assumptions made in this process have

analytic implications. The section also explains the quality checks performed on the data and gives technical information about the structure of the data files, number of records, general format, etc.

Section V reproduces the questions from the Form 1 survey instrument and provides all of the technical information required for using the data. Definitions of all the codes are included, as are notes to aid in item interpretation. Section VI presents the same information for the Form 2 questionnaire.

The appendixes contain ancillary reference material to facilitate the understanding of the sample and the questionnaires. Appendix A lists the 67 AFEES, all of which participated in the survey, the dates on which data were collected, and the number of individuals who returned questionnaires. Appendix B lists each item in Form 1 in the same order as in the questionnaire reproduced in Section V, and, for each item, the number of the corresponding question on Forms 2, 3, and 4. This listing enables the user to find identical variables in other variants. Appendix C is an ordered listing of Form 2, with references to Forms 1, 3, and 4.

## II. SAMPLE DESIGN AND RESPONSE RATES

### SAMPLE DESIGN

The sample design of the 1979 AFEES Survey was based on similar approaches to earlier surveys conducted at the AFEES stations. In the past, stations had sometimes been assigned a quota of questionnaires to be administered, either a definite number or a number based on the number of individuals processed in a given period, and the selection of individuals had been left to the discretion of the survey administrators. Alternatively, AFEES stations had been asked to survey all of the individuals processed during a given time period. In general, the type of individual to be surveyed, e.g., males or females, or individuals with or without prior service had also been defined.

Most of the information collected in the 1979 AFEES Survey relates to the enlistment decision process and to the characteristics and experiences of the individual prior to enlistment (discussed in detail in Section III). To study the enlistment process completely, we would need a longitudinal survey design that would follow individuals from the time they made the initial gesture toward the Armed Forces, through all phases of recruiter contact, to the swearing-in ceremony. Data collected at the point at which the decision is clearest in the enlistee's mind, i.e. at the AFEES, may be used as a surrogate method of collecting some of the data needed to understand the process. In addition, the individual's recall of such experiences and events as employment history, contact with educational institutions, and the recruitment process is probably also at a maximum just prior to actual Service entry.

These considerations, combined with a regulation prohibiting surveys of individuals until after they have been sworn into the Armed Forces, led us to a design that limited respondents to men and women without any prior military service who were active force accessions and who would be interviewed as soon as possible after the enlistment decision had been made. In practical terms, this meant interviewing individuals who were going into the Delayed Entry Program (DEP) or who were being processed and sent directly to training without time in DEP, i.e., "direct ships."

The initial sample design called for administration of the questionnaire at a subgroup of AFEES in March and at another subgroup in September; the larger stations were to have been included in both samples. However, as we examined station characteristics and accession flows, it became clear that such subsamples would be difficult to select. The data with which to select a better sample, e.g., economic distribution of the eligible pool in each AFEES jurisdiction, was not available. Furthermore, such a sample design would not have allowed for the allocation of respondents to recruiting areas, a feature requested by the Joint Market Analysis and Research Committee (JMARC) and previously implemented in 1976. As a result, the survey was administered at all 67 stations, both in spring and fall.

To simplify administration and provide sufficient cases for analyses of various subgroups, e.g., Service, region, recruiting district, and educational group, the final design called for interviewing 100 percent of the survey-eligible respondents during a designated 20-day period. The size of the expected sample was estimated on the basis of Military Enlistment Processing Command (MEPCOM) files for March-April and September-October 1978. We assumed no major changes in the accession patterns of a particular time of the year from 1978 to 1979 and estimated that 18,000 to 25,000 survey-eligible individuals would be processed during each 20-day period. Since we planned to administer two somewhat different questionnaires simultaneously, the expected samples for each questionnaire were simply 50 percent of the survey-eligibles at each AFEES during the 20 days.

The calendar time for the survey administration was selected on the basis of several criteria. First, both conventional wisdom and statistics describing enlistees suggested that their backgrounds and the reasons for enlistment differed between spring and fall. Second, the spring data collection would coincide with several civilian studies of the youth population. Thus, statistical comparisons between the enlistee population and individuals not entering military service could be made.

Any sample design for a survey conducted at the AFEES is, of course, constrained in several ways. First, the number and type of individual who will be processed in a given period is not known. Second, the actual administration and sample selection is often the responsibility of individuals who do not understand the purpose of the study and are not sensitive to the need for accuracy in sample selection and record keeping. Finally, operational requirements of the AFEES often create conditions that are less than optimal for data collection. For these reasons, a sample that is well defined and easy to select is preferable to more sophisticated designs.

#### SAMPLE SELECTION PROCEDURES

The survey period was defined as 20 consecutive working days following the receipt of survey materials. The period was to include Saturdays if the AFEES was in operation. As can be seen from Table A, Appendix A, the survey was conducted between March and June, depending on the AFEES station.

Survey administrators were instructed to use the signed enlistment contracts to identify survey-eligible enlistees. As indicated above, an enlistee was survey-eligible if he or she:

- o Had no prior military Service (NPS)
- o Was joining the active force (Army, Navy, Air Force, or Marine Corps)
- o Was entering the Delayed Entry Program or
- o Was entering active duty on the day of the survey and had not been in a DEP.

The eligibility rules were defined in the administrative instructions. To check survey eligibility, Question 2 of each questionnaire asked:

2. Is this sentence TRUE or NOT TRUE for you?

Today is the FIRST TIME I have ever been sworn into the military.

- o TRUE for me (Go to Q.3)
- o NOT TRUE for me (SEE SPECIAL INSTRUCTIONS BELOW)

SPECIAL INSTRUCTIONS: IF YOU HAVE EVER BEEN SWORN INTO THE MILITARY BEFORE TODAY, PLEASE TELL THE SURVEY ADMINISTRATOR NOW. DO NOT CONTINUE THE SURVEY.

If a survey participant notified the survey administrator that he or she had been sworn in before the day of the survey, the enlistment contract was to be checked. If an enlistee was found ineligible to participate, he or she was not to have completed the questionnaire.

#### RESPONSE RATES

The instructions for sample selection were straightforward, and the cooperation of each AFEES in survey administration was encouraged both by the United States Army Recruiting Command (USAREC) and the Services. hand monitored the survey administration through periodic telephone calls to the AFEES. Preliminary indications suggest, nevertheless, that some AFEES did not always follow instructions for collecting data and identifying respondents.

As part of verifying the sample composition, the sampling criteria defined above were applied to the USAREC accession files containing records for all individuals processed between March and June. A post hoc sample was then selected by using the actual survey administration dates shown for each AFEES in Table A. This sample of 26,452 individuals should include the accession record of each individual who completed a questionnaire, as well as of each who was survey-eligible but who did not return a questionnaire.

Using information in the questionnaires--primarily Service, SSN, AFEES code, and birthdate--we tried to link the 15,219 questionnaires from the spring administration to the USAREC records. This linkage revealed a total of 468 survey records completed either by individuals who were definitely entering the Army Reserve (n = 442) or those with

prior military service ( $n = 26$ ). These records were removed, leaving a total of 14,751 records in the files.

The files currently contain 174 records in which the respondent indicates that he or she had been sworn into the military prior to the survey day, but for which the USAREC record has not been identified. These individuals may, in fact, not be survey-eligible.

The size of the post hoc sample selected, 26,452 individuals, suggests that the response rate for the survey may be smaller than expected. Without adjustment for the AFES that administered the survey for less than 20 days, the response rate is 56 percent. An analysis of survey bias is being undertaken to determine if substantial differences exist between the characteristics of those who returned surveys and the population eligible for the survey. If we find that definite bias does exist, adjustments in the form of weights will have to be developed.

### III. CONTENTS OF THE DATA FILES

#### DATA REQUIREMENTS

The 1979 AFES Survey, as indicated above, is composed of four questionnaires: Forms 1 and 2 administered in Wave 1 (spring), and Forms 3 and 4 administered in Wave 2 (fall.) The questionnaire development process for the survey was guided by two major considerations: (1) relevance of the items to important policy issues relating to accession and first-term attrition and (2) accommodation of the research needs of as large a group of potential users as possible.

The precise structure and contents of the questionnaires resulted from several interrelated activities. Suggestions and recommendations for content were solicited from all of the offices in MRA&L, the Services, and JMARC. Rand researchers working on issues of military manpower supply, accession policy, and the use of women also defined data requirements.

In addition, an extensive review of past AFES Survey questionnaires and reports published from the resultant data was undertaken. The purpose of the review was to determine if any continuity of subject areas and items existed across questionnaires and if any of the analysis used data that were collected in a similar manner at different times. The review concluded that significant differences in questionnaire structures, modes of administration, and samples existed between each of the previous AFES surveys. Strict continuity, therefore, was not an issue in designing the new survey. It became clear, however, that variables should be selected and items designed so that the data collection would allow for comparisons with existing civilian data bases. Specifically, comparisons should be possible with the U.S. Bureau of the Census Current Population Survey and the Department of Labor National Longitudinal Survey of Youth.

It became apparent in the process of designing Wave 1 pretest questionnaires that even a minimal set of analytic requirements could not be met in one questionnaire. Such a questionnaire would have required well over an hour of each respondent's time. To decrease respondent burden, two questionnaires were designed, with many of the

items included in both. In addition to the common set, items designed to collect detailed information about the enlistment process were clustered in Form 1. A group of items identified as possible predictors of attrition, together with items asked specifically of female recruits, were clustered in Form 2. The Wave 2 questionnaires continued this broad substantive distinction between the two forms: Form 3, like Form 1, emphasized enlistment; Form 4, like Form 2, emphasized attrition and issues related to women. Differences between the Wave 1 and Wave 2 questionnaires resulted from a decision to broaden the data base and substitute a small number of new items in Wave 2. In addition, experience with the Wave 1 questionnaires identified some technical problems that led to modification of the questionnaires before Wave 2.

#### STRUCTURE OF THE QUESTIONNAIRES

The questionnaires were similarly structured. The first section, Your Enlistment, collected basic information about the enlistment contract, including Service, length of enlistment, and entry level pay, together with the individual's assessment of the reasons that he or she enlisted. The second section, Facts About You, included the detailed information about the individual, including sex, race, Social Security number, and date and place of birth. The questionnaire also sought information about the composition of the enlistee's present household and his household when he was 14 years old. The section called Your Education included past and present school attendance, attainment levels, and self-reported grades. Form 1 identified participants in the Veteran's Educational Assistance Program (VEAP); Form 2 contained special items for non-high-school graduates.

The fourth section, Marriage and Children, included both present marital and family status and future plans. Section V, Working and Jobs, collected labor force participation information since age 16, together with details about the job currently or most recently held. Additional items in Form 2 asked the reasons for leaving jobs. Both forms included a labor force activity account for the preceding year in which the respondent was asked to report activities in terms of working full time, working part time, unemployed, or looking for work for each

month. Participation in government-sponsored training programs, such as CETA, was also ascertained.

The section called Your Income and Expenses was designed to assess economic maturity and experience. The enlistee was asked about income for the past 3 years, total value of savings and checking accounts, and receipt of allowances and rent payments. The respondent was asked to estimate earnings if he or she were not entering the military and to indicate a preference between military and civilian jobs at different wage rates.

Form 2 contained a special section, Your Family, designed to collect data about parents, brothers, and sisters, including experience in the military, educational attainment, occupations, family income, and welfare dependency.

The next section, Your Decision to Enlist, provided data about the decisionmaking process and the importance of various information sources within it. Special attention was paid to collecting information about the sequence of activities related to enlistment, such as the order of interaction with various recruiters and the date of initial contact. Form 1 contained an expanded enlistment-decision process section at the end of the questionnaire.

This expanded last section of Form 1 described enlistment options in each of the Services and asked the respondent to indicate preferences for programs in a Service other than the one that he or she was joining. The respondent was asked: "If only the [Service] had offered each item listed below, would you have joined the [Service] instead of the Service you joined today?"

The last section of Form 2, What's Your Opinion, included a short psychological battery, items to assess attachment to a geographical locale, and a projective assessment of satisfaction with military life. Items in the second part of the section, to be answered by women recruits, related to the choice of and preference for traditional or non-traditional jobs and the feelings of family and friends on the military job selected.

The above summary of the questionnaires follows the order of the questionnaires. Table 1 summarizes the questionnaire by substantive

content area. Not every item in the four questionnaires is included in this table; however, every content area is listed. In addition to the classification of items, the table indicates which of the four questionnaires contain the items.

The most complete listing of questionnaire contents appears in the appendixes. Appendix B lists each item in Form 1 in the same order as the questionnaire and, for each item, the numbers of the corresponding question on the other three questionnaires (Forms 2, 3, and 4). Appendix C is an ordered listing of Form 2, with references to Form 1, 3, and 4.

#### IV. DATA PROCESSING AND DATA LIMITATIONS

The questionnaires designed for this survey were self-administered forms suitable for subsequent processing by optical scanning. Most of the questions were followed by a set of printed responses. To answer the question, the respondent was required to darken the "bubble" next to the response that best indicated his answer. This response type is known as a precoded question. Other items required the respondent to enter a multidigit number in a set of boxes by darkening bubbles to correspond to each digit. This response type is known as a grid question. The optical scanner reads every mark the respondent makes in the prescribed places on the forms, either next to precoded items or in grids. The data files described here represent the data after they have been transformed from the exact responses read by an optical scanner to usable responses. The remainder of this section describes the data transformations, alerting the user to procedures that may have implications for subsequent data processing and analytic interpretation.

##### QUESTIONNAIRE RECEIPT AND EDITING

The procedure followed in the receipt and editing of the questionnaires at the Defense Manpower Data Center (DMDC) will be described in detail in a subsequent document, and recommendations will be made for changes for future DoD survey efforts. The basic outline of that procedure as it affects the actual processing of questionnaires is outlined below.

DMDC received questionnaires from the AFEES in boxes containing approximately 100 questionnaires. These shipments were to have been accompanied by a report form indicating the origin, size, and contents of the shipment.

In preparing questionnaires for optical scanning, DMDC personnel separated completed questionnaires from incomplete or blank forms and marked each form with an AFEES-specific identifier. DMDC personnel also calculated the administration time of each questionnaire, based on the

respondent's entry of time at the beginning and end of each questionnaire form, and entered the time on the form.

In addition to assignment of AFEES identifiers, the questionnaires were also carefully reviewed at this stage to make sure that they were scannable. This review included verifying that the questionnaires did not contain stray markings, that pencil markings were dark enough to be scanned, and that a few questionnaires which had been marked with ink or which contained torn or missing pages were identified. Inked questionnaires and other potentially unscannable questionnaires were subsequently remarked with scannable pencils.

Upon completion of editing, DMDC sent the questionnaires to the optical scanning contractor, the Intran Corporation, for the preparation of machine-readable data. To simplify processing for Intran, questionnaires were sorted by form number prior to shipping.

#### OPTICAL SCANNING SPECIFICATIONS

Intran was given detailed specifications for code assignment, handling of incomplete or illegible data, file formats, etc. In writing specifications for the optical-scanning contractor, several considerations were taken into account. First, every attempt was made to ensure that the information on the tape returned to DMDC would reflect all of the information provided by the respondent on the questionnaire. Thus, even in those cases where the information was incomplete, or extra data were provided, the specifications were designed to preserve data. For example, partial numeric entries were scanned instead of substituting an audit code for the whole entry.

Second, decision rules were provided for scanning responses to questionnaire items in which the respondent marked more than one answer but for which only one answer was required. Third, codes assigned to the optical-scanning bubbles were chosen to be consistent with some of the major statistical packages currently being used by analysts. Finally, to the extent feasible, codes were selected to be consistent across items; e.g., the same numeric code was assigned to all "don't know" response options.

Although a general set of specifications was developed to apply to all of the questionnaires, each questionnaire also required its own set of item-specific optical-scanning specifications. (The precise technical specifications can be obtained by writing to the Chief, Survey Branch, Defense Manpower Data Center, 300 North Washington Street, Alexandria, Virginia 22314.)

Before DMDC's processing is described, several aspects of the optical-scan processing of blank data and extra data and of information in grids require further explanation.

The returned questionnaires contained many instances of items that had been left blank. In processing, a distinction was made between items that had have been left blank because the respondent had been instructed to skip them and items that had been left blank as the result of respondent error. In the former case, the optical-scanning contractor was instructed to leave a blank field on the record. In the latter case, an audit code for missing data (-1) was entered. This distinction is necessary because the optical scanning process is set up to scan only one data field at a time; i.e. the machine is not normally programmed to check relationships between data fields and determine whether or not an item should have been skipped by a specific respondent. Leaving blank the data fields that could be part of a skip pattern simplified subsequent processing at DMDC. Software was written at DMDC to check item interrelationships and to change those blanks either to codes indicating that the item did not apply to the respondent or, if the respondent should have answered the item, to a missing value code (-1).

Extra data were of two kinds. First, a respondent may have answered an item which, in fact, he should have left blank, i.e. an item that he had been instructed to skip. Second, a respondent may have marked more than one response to an item that called for only one response. The extra data of the first kind were simply left on the tape. In the second situation, Intran was given item-specific rules either for an audit code or selection among multiple entries. An audit code was used for all items for which it was impossible to develop an algorithm for selecting from among the two or more coded answers. If a logical determination of the correct response could be made, Intran was

provided with rules for resolving the multiple entry. For example, in items asking for educational attainment, respondents often marked the bubbles next to both "8th grade" and "12th grade." Examination of the layout of the educational attainment items on the optical-scanning form clarifies why this mistake could be made (see, Form 1 questions 32 and 33). We assumed that the respondent intended to show completion of both elementary and high school, and therefore we coded a value of "12" on the data files. If the selection rule was used, a flag was set to enable the analyst to distinguish between "pure" cases of 12th grade marked by the respondent and those resulting from the resolution of a multiple entry. For each questionnaire, an extra set of variables was created and appended to the end of the file; each extra variable was associated with a questionnaire item for which additional instructions had been provided.

Information in grids also presented special problems in optical scanning. Apart from errors the respondent may have made in entering information in the boxes, several types of errors resulted in marking the matching bubbles. First, although the instructions asked the respondent to "zero-fill" and "right-justify," some respondents entered the value properly in the boxes (right-justified), but failed to zero-fill the bubbles corresponding to the response. Second, some respondents entered the value in the boxes and marked the bubbles from the left. Finally, some respondents entered the values properly in the boxes but forgot to darken some or all of the corresponding bubbles. Except for zero-filled right-justified entries, data in grids were scanned as marked by the respondent without special adjustments. Subsequent handling of these grids by DMDC is outlined in the next section.

#### RECODING AND AUDIT CODES

Intran returned the automated files to DMDC. The automated files contained the codes specified for each item in the questionnaire, together with the extra variables indicating that rules for resolving multiple entries had been used. These are unrecoded files, representing only the initial coding (scanning) of the data. Before any additional

processing was undertaken, DMDC checked the unrecoded files as received from Intran to verify that the expected code values were present in each data field.

DMDC next systematically processed the data files so that every response field of the survey record for every respondent contained either a well-defined response code or an audit code. Since the optical-scanning process cannot distinguish between responses that have been correctly left blank by a respondent, i.e. are part of a skip pattern, and those that have been missed, i.e. left blank in error, software was developed to check each blank field on each survey record and to assign either an audit code of -1 (missing data) or to replace the blank with an appropriate value referring to a specific "not applicable" definition. For example, blank fields in the item requesting spouse's education would either be recoded with an audit value of -1 (missing) if the programmed algorithm checked marital status and found the respondent married, indicating that the question should have been answered, or a value of -3 (not applicable) if the algorithm found that the respondent was single, indicating that the item was appropriately skipped.

Several aspects of the recoding should be emphasized. First, in many instances, the respondent was asked to answer a question by marking more than one response category ("Mark all that apply"). In scanning the questionnaires, Intran treated each response category as a separate variable. The contractor left a response category blank if it was unmarked, since the scanner could not tell if the respondent meant to leave that particular response blank and mark another in the series or if the respondent left all of the response categories in the series blank. In those instances, the function of recoding was to treat the series of responses as an interrelated series and to assign values of "not marked" to blank response categories.

Second, the questionnaires contained instances in which a particular item was appropriately skipped by more than one group of respondents. Whenever possible, separate codes were assigned to the different "not applicable" categories in the recoding.

Third, to some extent, recoding was used to create new variables that would more clearly distinguish a special category of respondents or responses which might simplify subsequent analyses.

None of the recoding, however, changed any of the data provided by the respondent; only blanks were recoded. In other words, recoding was not used as a process of modifying the data base by either eliminating extra data or by making assumptions about what "correct" responses should be. We give two examples below:

1. A number of respondents who gave their marital status as divorced nevertheless provided information about "wife's education." According to the instructions, respondents who "are not married now" should have skipped these items. In recoding the file, blank values in "wife's education" were checked against marital status and either a "missing" or "not applicable" code assigned. However, filled in values for the "wife's education" variable provided by individuals for whom the question should have been "not applicable," e.g., divorced, were left in the file. Analysts can either assume that marital status is correct and recode "wife's education" further or select a subgroup for analysis, e.g., only "married" or "separated" individuals in this example, and the extra data will automatically be eliminated from the tabulations.
2. A number of respondents who indicated that they "did not" sign up for a job that paid a bonus nevertheless provided a "bonus amount." In recoding the file, blank values in "bonus amount" were checked against the item indicating whether or not a bonus was received. If the respondent indicated that a bonus was received, an audit code of -1 (missing) was assigned. If the respondent indicated that a bonus was not received, a "not applicable" code was assigned. Discrepant cases, however, were not recoded. The analyst will have to decide, in this example, whether to accept the bonus amount and assume that the indication of whether or not a bonus was received is in error or whether to select for analysis only individuals who indicated receiving a bonus.

In the recoding, special attention was paid to grid responses that were either erroneously left-justified or contained imbedded blanks. The raw marginal distributions for gridded items indicated that machine algorithms could not easily be developed for adjusting the data without extensive, almost case-by-case, review of the errors. Even if a pattern of error could be detected which would allow for algorithmic adjustment, users might raise objections to the recoding assumptions. As a result, in the recoding, all such responses have been assigned an audit code (-4) defined as "incomplete data provided by the respondent." As the subsequent discussion indicates, only about 10 percent of the questionnaires contained one error of this type; therefore its overall magnitude does not appear serious.

The review of marginals for grid response items also indicated that some responses that were technically accurate were, in fact, substantively highly unlikely. More specifically, the responses were outside of a plausible range of responses. For example, the grid associated with the year of birth item allows for entry of numbers between 00-69. References such as 18 or 69 are technically correct but outside a plausible range. In processing, upper and lower boundaries were established for all such items and an audit code (-4) assigned to out-of-range values.

DMDC has, however, maintained auxiliary tapes in which the incomplete and out-of-range entries are present, i.e. tapes in which audit code values of -4 have not been assigned. If a user has the resources to undertake data reconstruction for items with imbedded blanks or wants to expand the ranges for items, DMDC can make such auxiliary files available. Obviously, if reconstruction were successfully completed by any user for any variable, the results would be made available to all known users.

#### ANALYTIC IMPLICATIONS OF DATA PROCESSING PROCEDURES

As indicated above, the data processing procedures included assumptions about the handling of data in grids and extra data. Here we summarize the assumptions and processing decisions and offer suggestions to data users.

1. Incomplete grid entries do not appear on these files; they have been assigned audit codes. We assumed that data reconstruction, if possible, would not change the basic distributions of these continuous variables. As indicated above, the incomplete data are available from DMDC for review and reconstruction attempts.
2. Ranges have been defined for continuous variables, i.e. responses in grids. The ranges for each variable, defined in Sections V and VI, have been selected on the basis of either information, e.g., birthdate of enlistee, or judgement. A conservative approach was used in defining ranges; the range selected is slightly broader than the available information, and preliminary analysis indicate that it should be. The data are available from DMDC for the user who wishes to expand the the ranges even further.
3. Multiple entries have been resolved in variables for which a definite criterion for selection could be established. Data resulting from such a resolution are identified by special flags, enabling analysts to eliminate information coded through this method.
4. Extra data resulting from skip pattern errors have been retained on the files. Possibly extraneous data provided by the respondent were not edited out by assigning them a "not applicable" code. The "not applicable" code was assigned only when the respondent left an item blank on the basis of an instruction.

The user will have to judge the possible impact of extra data on each analysis. In some cases, the elimination of such data may be straightforward; in other cases, problematic. For example, some individuals who coded marital status as "single, never married" nevertheless provided information about a spouse. An analyst may want to assume that marital status was correct and delete the information about a spouse by analyzing "marital status." The decision to

eliminate data is more ambiguous and therefore more difficult to make in situations where both the criterion variable, e.g., type of bonus, and the subsequent question, amount of bonus, contradict each other.

To aid the user in identifying sets of questions that are part of legitimate skip patterns, special notations have been included in Sections V and VI. The notation "QUESTION XX IS NOT ANSWERED BY ALL RESPONDENTS" appears above such items, followed by a reference to an earlier item or an explanation of respondent categories that should have answered the items. Also included with each question in Sections V and VI are the exact skip instructions printed on the questionnaire instructing respondents to leave certain questions unanswered.

#### QUALITY CHECKS AND INDICATORS

Survey research is always subject to some degree of respondent error, some unintentional and some deliberate. Unintentional errors may result from misunderstanding an item. For example, a widowed respondent might answer items about the spouse, even though the item instruction is for "married now" persons. Unintentional errors can also occur in recording a response, e.g., in left-justification in a grid or by marking a bubble across from a response category other than the one intended. These unintentional errors may result from technical problems with the questionnaire which were not adequately solved prior to survey administration, or from a range of factors related to the respondent (e.g., the respondent may have been interrupted or distracted while completing the questionnaire).

Respondent error may also arise through deliberate questionnaire mismarking on the part of the respondent. An individual who is annoyed or inconvenienced by the survey has the option of refusing to participate. However, it is also possible to find a respondent who answers randomly without reading items or who deliberately chooses to make false responses. Another example, though less extreme, is the respondent who cooperates in the beginning of the survey but either loses interest or motivation and, therefore, either finishes with random responses or simply does not complete sections of the questionnaire.

Several analyses to assess the effect of respondent errors on the overall quality of the data are currently under way. These analyses will be reported in a separate document. Several preliminary steps in the analyses are described below, and information is given to aid data users in determining the quality of the data.

One approach to determining data quality is to examine the extent to which audit codes for missing, uncodable, incomplete, or out-of-range data were assigned. Although different items vary in complexity for the respondents, for the present purpose one can assume that a gross count of these codes, by Form, can be of use in assessing quality. Table 2 contains a distribution of the number of questionnaires by the number of missing or uncodable data codes (-1). The data in the table are not directly comparable across both Forms, since the number of possible missing or uncodable codes varies. Although each Form contained more than 200 data elements which could have been coded as missing or uncodable by each respondent, examination of Table 2 shows that for both Forms, approximately 75 percent of the questionnaires contained less than 10 percent missing data, i.e. less than 25 audit codes per questionnaire. In addition, the number of respondents who returned questionnaires with substantial data gaps, i.e. more than 126 audit codes, is quite small. These cases, however, are currently on the data files. Before such cases can be eliminated, it is important to establish whether their exclusion would bias the data in any definite ways. For the present, we assume that each analyst will make independent decisions about elimination of incomplete cases. Another way to assess data quality is to examine the distribution of questionnaires by the number of variables with incomplete or out-of-range data codes (-4), as shown in Table 3. The data in Table 3 indicate that grid entries, when made, were not a serious problem in these questionnaires.

As part of our work, we have written a series of "quality checks" for each Form to check each respondent's record for data inconsistencies and the presence of information in certain critical variables (e.g., sex, Service). As indicated above, the data tapes have not been edited to eliminate inconsistencies or extra data, and audit codes exist where applicable. The quality checks, therefore, can provide a measure of

Table 2  
DISTRIBUTION OF QUESTIONNAIRES BY NUMBER OF VARIABLES  
WITH MISSING OR UNCODABLE DATA (-1)\*

Total	7419	99.9	7332	100.1

\*The maximum number of missing or uncodable data codes which could have been assigned to Form 1 = 242 and Form 2 = 220.

quality of the data files. An error detected by a quality check indicates that:

1. Data do not meet an interitem consistency check
2. Data do not meet a specification for a legitimate range or
3. Data are either missing or uncodable (-1) or marked so that a value cannot be determined (-4).

Table 4 shows the frequency distribution of questionnaires by the total number of errors detected by the quality checks for each of the Forms. An examination of the data indicates that at least 90 percent of the respondents followed the instructions in the questionnaires and provided usable data. The quality check variables are not on the data files. Items involved in quality checks are, however, identified in

Table 3  
DISTRIBUTION OF QUESTIONNAIRES BY NUMBER OF VARIABLES WITH  
INCOMPLETE OR OUT-OF-RANGE DATA CODES (-4)\*

Number of Incomplete or Out-of-Range Data Codes/Questionnaire	Form 1 Questionnaires		Form 2 Questionnaires	
	Number	Percent	Number	Percent
None	5988	80.7	5735	78.2
1	1214	16.4	1284	17.5
2	189	2.5	251	3.4
3	24	0.3	51	0.7
4	4	0.1	10	0.1
5			1	0.0
Total	7419	100.0	7332	100.0

\*The maximum number of incomplete or out-of-range data codes which could have been assigned to Form 1 = 9 and to Form 2 = 11.

Sections V and VI; e.g., Q3 shows a notation of F3, indicating that a check involving the item was written.

While examination of each of these tables certainly indicates that the data are usable, additional analysis is required before definite statements can be made about the inclusion or exclusion of specific cases. It is entirely likely, for example, that elimination of cases with multiple errors on the quality checks will also eliminate the extreme cases on the distributions of missing, uncodable, or incomplete data codes. As indicated above, all of the scanned records for each questionnaire Form are included in the data files, except those excluded because the respondent was ineligible.

#### FILE STRUCTURE

The data files for the four questionnaires are organized identically. The first few variables on each record contain identifiers included as part of the processing. These are a Form number (XV1) and a questionnaire identification number (XV2). The data from the actual questionnaires follow, in questionnaire item order. The calculated minutes for completion and the AFEES codes follow. Finally, the flags set as part of resolving multiple entries appear. Table 5 below summarizes the general structure.

Table 4  
DISTRIBUTION OF QUESTIONNAIRES BY NUMBER  
OF QUALITY CHECK ERRORS\*

Number of Quality Check Errors per Questionnaire	Form 1 Questionnaires		Form 2 Questionnaires	
	Number	Percent	Number	Percent
None	1480	19.9	539	7.4
1	1945	26.2	1780	24.3
2	1593	21.5	1574	21.5
3	799	10.8	1025	14.0
4	471	6.3	664	9.1
5	323	4.4	397	5.4
6	178	2.4	304	4.1
7	102	1.4	186	2.5
8	66	0.9	169	2.3
9	46	0.6	123	1.7
10	66	0.9	82	1.1
11-12	81	1.1	127	1.7
13-14	83	1.1	100	1.4
15-16	50	0.7	64	0.9
17-18	24	0.3	63	0.8
19-20	52	0.7	61	0.8
21-25	60	0.8	74	1.0
Total	7419	100.0	7332	100.0

\*The maximum number of quality check errors which could have been assigned to each form is 29.

V. ITEM-BY-ITEM SPECIFICATIONS FOR 1979 DOD SURVEY OF PERSONNEL  
ENTERING MILITARY SERVICE: FORM 1

This section contains the detailed information necessary for using specific variables from this questionnaire for analysis. Each question from the survey instrument is reproduced as it appears on the printed questionnaire, modified somewhat from the optical scanning forms which were used in the actual data collection. Optical scanning questionnaires use two basic formats, one for items in which all the response categories are pre-printed and one for items which require the respondent to enter a multi-digit numeric response. For those items on the optical scanning forms where a response is indicated by darkening a "scan bubble" next to one or more pre-printed categories, we have replaced the scan bubbles in this section with the actual numeric code assigned to the responses as part of data processing. For those items on the optical scanning form which required the respondent to record a numeric response by entering numbers in boxes and darkening the corresponding numbers in a pre-printed optical scanning grid, we have shown just the number of boxes provided for the response. The numeric range of the scan grid is defined in the CODES section explained below.

As a visual aid, each question is enclosed in a box. As indicated in an earlier section, every question in the survey was not answered by all respondents. Instead, some items contain specific skip instructions. To aid the user in identifying items or sets of items which are part of legitimate skip patterns, a notation appears above items which should have been skipped. The notation "NOTE: QUESTION XX IS SKIPPED BY SOME RESPONDENTS, REFER TO QUESTION XY FOR SKIP INSTRUCTION" is generally used. In some instances, a special note appears before a whole section, e.g., before IV. MARRIAGE AND CHILDREN. In addition to these notations, the boxed questions contain the exact skip instructions which were printed on the questionnaire.

Immediately below each boxed question are several items of technical information required for using the data. The first, item

labeled VARIABLE NAME, gives the name assigned to each variable for processing purposes. In establishing names, the questionnaire item number has been retained as much as possible with the letter "Q" used as a prefix. However, several additional conventions have been established.

- o All lower-case alpha characters have been changed to upper-case alpha characters.
- o Unnumbered sub-items of a questionnaire item have been assigned the numeric question number followed by an upper-case alpha character, e.g., Form 1, Q80 is named Q80A - Q80E.
- o Unnumbered sub-items within an alphabetic sub-item are assigned the numeric question number followed by an upper-case alpha character and followed by a sequential number, for example, Form 1, Q29B1 - Q29B10.
- o Variables which are completely unnumbered on the printed questionnaires or variables added in the course of optical scanning are assigned an XV (extra variable) series; i.e., the Questionnaire Form Code becomes XV1, the Questionnaire Identification Number becomes XV2, etc.

The conventions used for naming variables are also used in naming the quality checks or flags appended to the data. However, a flag name is preceded by the letter "F" instead of "Q," e.g., F3.

A second item, FLAG, gives the variable name assigned to the quality check associated with the variable. For all variables which do not have an associated quality check, the FLAG entry does not appear. The next item, TAPE POSITION, indicates the location of the data on the tape.

The next item, CODES, contains a complete listing of all code values assigned to the variable. The response values listed under the CODES column are more complete than those previously listed as part of the boxed question item. The CODES section also defines the AUDIT CODES which have been assigned to each variable as part of the recoding process; i.e., the various "not applicable" responses or

missing value codes assigned during the RECODING are explained. In the case of items which required a multi-digit numeric response, the allowable range of values is defined.

Finally, the section below each question may contain special notes to the user. These NOTES provide additional information on the interpretation of the data and alert the user to special procedures which may have been followed in preparing the data for a specific variable.

DoD-MRAL Emblem

RCS #DD-M(SA)-1516  
FORM 1DEPARTMENT OF DEFENSE  
1979 SURVEY OF PERSONNEL ENTERING MILITARY SERVICE

The Department of Defense is conducting a survey of people entering military service. You have been selected to participate in this important survey. Please read the instructions below before you begin the questionnaire.

## Note:

Public Law 93-573, called the Privacy Act of 1974, requires that you be informed of the purposes and uses to be made of the information that is collected.

- o The Department of Defense may collect the information requested in the DoD Survey of Personnel Entering Military Service under the authority of 10 United States Code 136.
- o Providing information in this questionnaire is voluntary. Failure to respond to any particular questions will not result in any penalty for the respondent.
- o The information collected in the survey will be used to evaluate and improve military personnel and recruiting policies.
- o The information will be used for research and analysis purposes only. The Rand Corporation under contract to the Assistant Secretary of Defense - Manpower, Reserve Affairs and Logistics (OASD-MRA+L), has primary research and analysis responsibility.

Note: This page and the following page are reproductions of the Cover Page and Instructions provided to all respondents as part of the questionnaire.

## HOW TO FILL OUT THIS SURVEY

- I. Use a NO. 2 PENCIL.
- II. Read each question carefully. Make a HEAVY BLACK MARK that FILLS THE CIRCLE next to your answer.
- III. If the question asks for a DATE, mark the MONTH AND YEAR.

EXAMPLE: When did you first talk to this recruiter? Mark the Month and Year. If you talked to this recruiter in APRIL 1978, you would mark your answer as shown below.

-----MONTH-----		-----YEAR-----	
<input type="checkbox"/> January	<input type="checkbox"/> July	<input type="checkbox"/> 1979	<input type="checkbox"/> 1973
<input type="checkbox"/> February	<input type="checkbox"/> August	<input type="checkbox"/> 1978	<input type="checkbox"/> 1972
<input type="checkbox"/> March	<input type="checkbox"/> September	<input type="checkbox"/> 1977	<input type="checkbox"/> 1971
<input type="checkbox"/> April	<input type="checkbox"/> October	<input type="checkbox"/> 1976	<input type="checkbox"/> 1970 or before
<input type="checkbox"/> May	<input type="checkbox"/> November	<input type="checkbox"/> 1975	
<input type="checkbox"/> June	<input type="checkbox"/> December	<input type="checkbox"/> 1974	

- IV. If the question asks for a NUMBER, you should do THREE THINGS:
  - o Write the numbers in the BOXES, making sure that the LAST NUMBER is always placed in the RIGHT-HAND BOX.
  - o FILL in the UNUSED BOXES with ZEROS.
  - o Mark the MATCHING CIRCLE BELOW EACH BOX.

EXAMPLE: About how much did you earn per hour at your last job? Suppose you earned \$ 2.50 per hour. You would enter the number as shown below.

DOLLARS	CENTS
\$ 02	50
00	00
11	11
22	22
....ETC.	

- V. Some questions also contain instructions about what to do next. The instruction depends on the answer you mark.

Q.46. Since you were 16 years old, have you ever had a full time or part time job?

- ☐ Yes - ANSWER Q. 47-53  
☐ No - GO TO Q.54

EXAMPLE: Suppose you have never had a full time or part time job. You would mark your answer as shown, then GO TO Q.54. This instruction tells you that you should leave Qs.47-53 BLANK, and start answering again at Q.54. In many of these questions, arrows will point to the next question you should answer.

I. YOUR ENLISTMENT

## Extra Variable

XV1 Questionnaire Form Code

Variable Name: XV1

Tape Position: 1

Codes: 1 Form 1

Note: A variant code was assigned to each questionnaire during the processing.

## Extra Variable

XV2 Questionnaire Processing Number

Variable Name: XV2

Tape Position: 2-7

Codes: 000001 - 999999 Sequential number

Note: A unique questionnaire number was assigned during the processing.

A What time is it now?

TIME: \_\_\_\_\_

Notes: Variable XV3 does not appear on the data files.  
Information not coded, used in calculation of XV4, tape positions 521-522.

B What is today's date?

MONTH	DAY
January.....	01 <span style="border: 1px solid black; padding: 0 5px;">  </span>
February.....	02
March.....	03
April.....	04
May.....	05
June.....	06
July.....	07
August.....	08
September.....	09
October.....	10
November.....	11
December.....	12

Variable Name: QB1(Month)      Flag: FB1      Tape Position: 8-9

Codes: 01-12 January-December  
 -1 Missing or Uncodable

Notes: If more than one month marked, highest number selected.  
 If highest selected, XV6=1, tape position 525. Wave 1  
 was administered April-June, depending on the AFEES.

Variable Name: QB2(Day)      Tape Position: 10-11

Codes: 01-31 Day of Month  
 -1 Missing or Uncodable  
 -4 Incomplete or out-of-range data entered by R

1 Which service are you enlisting in today?

Mark One

Army.....1  
Navy.....2  
Air Force.....3  
Marines.....4

Variable Name: Q1

Flag: F1

Tape Position: 12-13

Code: 01-04 As Above

-1 Missing or Uncodable

2 Is this sentence TRUE or NOT TRUE for you?

Today is the FIRST TIME I have ever been sworn into the military.  
(Mark One)

TRUE for me.....1 (GO TO Q.3)

NOT TRUE for me.....0 (SEE SPECIAL INSTRUCTIONS BELOW)

SPECIAL INSTRUCTIONS: IF YOU HAVE EVER BEEN SWORN INTO THE  
MILITARY BEFORE TODAY, PLEASE TELL THE SURVEY ADMINISTRATOR NOW.  
DO NOT CONTINUE THE SURVEY.

Variable Name: Q2

Flag: F2

Tape Position: 14-15

Codes: 01 True For Me, First Swearing In

00 Not True For Me, Not First Swearing In

-1 Missing or Uncodable

Note: Rs who marked Code 01 may not be eligible for  
survey. See discussion of sample.

3 Are you shipping out TODAY?

Mark One

Yes.....1 (GO TO Q. 4)

No.....0 (ANSWER A&B)

Variable Name: Q3

Flag: F3

Tape Position: 16-17

Codes: 01 Yes

00 No

-1 Missing or Uncodable

NOTE: QUESTIONS 3A AND 3B ARE SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 3 FOR SKIP INSTRUCTION.

A When will you enter active duty (ship out)?

MONTH

DAY

YEAR

January..... 01

--	--

1979..... 79

February..... 02

1980..... 80

March..... 03

April..... 04

May..... 05

June..... 06

July..... 07

August..... 08

September..... 09

October..... 10

November..... 11

December..... 12

Variable Name: Q3A1 (Month)

Tape Position: 18-19

Codes: 01-12 January-December

-1 Missing or Uncodable

-3 Not Applicable, i.e., shipping out today.

Note: If more than one month marked, highest number selected.  
If highest selected, XV7=1, tape position 526.

Variable Name: Q3A2 (Day)

Tape Position: 20-21

Codes: 01-31 Day of Month

-1 Missing or Uncodable

-3 Not Applicable, i.e., shipping out today

-4 Incomplete or out-of-range data entered by R

Variable Name: Q3A3 (Year)

Tape Position: 22-23

Codes: 79 1979  
80 1980  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., shipping out today.

B What is the main reason you are waiting to enter active duty?

Mark One

I want to finish school.....1  
I want to keep working until that time.....2  
The job or location I wanted is not  
available until that time.....3  
I need time to take care of business and  
personal affairs.....4  
I want to take some time off before I  
go into the military.....5  
I am waiting for military transportation.....6

Variable Name: Q3B

Tape Position: 24-25

Codes: 01-06 As Above  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., shipping out today

- 4 How many years of active duty have you signed up for?  
Mark number below.

1 year or less..... 01  
2 years..... 02  
3 years..... 03  
4 years..... 04  
5 years..... 05  
6 years..... 06  
7 years..... 07  
8 years..... 08

Variable Name: Q4

Tape Position: 26-27

Codes: 01-08 Years, As Above  
-1 Missing or Uncodable

Note: Rs who marked code 01 may not be eligible for survey.  
See discussion of sample

NOTE: QUESTION 5 IS SKIPPED BY SOME RESPONDENTS. SEE SKIP  
INSTRUCTION BEFORE QUESTION 5.

\*\*\* IF YOU HAVE SIGNED UP FOR TWO YEARS, ANSWER Q.5 \*\*\*

IF YOU HAVE SIGNED UP FOR MORE THAN TWO YEARS, GO TO Q.6.

- 5 If your service did not offer a two year enlistment, what would  
you have done?

Mark One

Not enlisted at all.....1  
Joined my service anyway.....2  
Joined a different service:

(Mark One Below)

Army.....3  
Navy.....4  
Air Force.....5  
Marines.....6

Variable Name: Q5

Tape Position: 28-29

Codes: 01-06 As Above  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., signed up for more than two  
years

6 What is the total length of your military obligation, including any Reserve or National Guard obligation? Mark the number below.

1 year or less.....	01	5 years.....	05
2 years.....	02	6 years.....	06
3 years.....	03	7 years.....	07
4 years.....	04	8 years.....	08

I don't know..... -8

Variable Name: Q6

Tape Position: 30-31

Codes: 01-08 Years, As Above  
 -8 Don't Know  
 -1 Missing or Uncodable

Note: R's who marked 01 may not be eligible for survey, see Introduction.

7 WHEN I ENTER ACTIVE DUTY, my pay grade will be:

Mark One Below.

ENLISTED GRADES: E1 E2 E3 E4 E5

OFFICER GRADES: 01 02 03 04

I don't know.....-8

Variable Name: Q7

Tape Position: 32-33

Codes: 01-05 E1-E5  
 11 01  
 12 02  
 13 03  
 14 04  
 -8 Don't Know  
 -1 Missing or Uncodable

8 AFTER ONE YEAR, my pay grade will probably be:

Mark One Below.

ENLISTED GRADES: E1 E2 E3 E4 E5  
E6 E7 E8 E9

OFFICER GRADES: 01 02 03 04 05 06  
07 08 09 010

Variable Name: Q8

Tape Position: 34-35

Codes: 01-09 E1-E9  
11 01  
12 02  
13 03  
14 04  
15 05  
16 06  
17 07  
18 08  
19 09  
20 010  
-1 Missing or Uncodable

9 When I enter active duty, my MONTHLY BASIC PAY will be:

\$     PER MONTH

I don't know..... -8

Variable Name: Q9

Tape Position: 36-38

Codes: 100-900 \$100-\$900 Basic Pay  
-8 Don't Know  
-1 Missing or Uncodable  
-4 Incomplete or out-of-range data entered by R

10 If your Monthly Basic Pay were \$100 less than it is now, would you still have joined the military?

Mark One

Yes, definitely.....1  
Yes, probably.....2  
No, probably not.....3  
No, definitely not.....4  
Don't know.....-8

Variable Name: Q10

Tape Position: 39-40

Codes: 01-04 As Above  
-8 Don't Know  
-1 Missing or Uncodable

11 Below are some reasons that people join the military. Please tell us if each one is TRUE or NOT TRUE for you.

	<u>TRUE FOR ME</u>	<u>NOT TRUE FOR ME</u>
A. I enlisted because I was unemployed and couldn't find a job	1	0
B. I enlisted to give myself a chance to be away from home on my own	1	0
C. I enlisted because the military will give me a chance to better myself in life	1	0
D. I enlisted because I want to travel and live in different places	1	0
E. I enlisted to get away from a personal problem	1	0
F. I enlisted because I want to serve my country	1	0
G. I enlisted because I can earn more money than I could as a civilian	1	0
H. I enlisted because it is a family tradition to serve	1	0
I. I enlisted to prove that I can make it	1	0
J. I enlisted to get trained in a skill that will help me get a civilian job when I get out	1	0
K. I enlisted because I can get money for a college education	1	0

Variable Names: Q11A  
Q11B  
Q11C  
Q11D  
Q11E  
Q11F  
Q11G

-1 Missing or Uncodable

12 Which of the reasons in Q. 11 is your MOST IMPORTANT REASON for enlisting? Mark One Letter Below.

MOST IMPORTANT REASON

A B C D E F G H I J K

Variable Name: Q12

Flag: F12

Tape Position: 63-64

Codes: A=01 G=07  
 B=02 H=08  
 C=03 I=09  
 D=04 J=10  
 E=05 K=11  
 F=06  
 -1 Missing or Uncodable

Note: See Variables Q11A-Q11K for definitions of letter codes.

13 Which of the reasons in Q. 11 is your SECOND MOST IMPORTANT reason for enlisting? Mark One Letter Below.

SECOND MOST IMPORTANT REASON

A B C D E F G H I J K

Variable Name: Q13

Flag: F13

Tape Position: 65-66

Codes: A=01 G=07  
 B=02 H=08  
 C=03 I=09  
 D=04 J=10  
 E=05 K=11  
 F=06  
 -1 Missing or Uncodable

Note: See Variables Q11A-Q11K for definitions of letter codes.

- 14 If you were eligible to enlist in all four services, which service would be your first choice? Your second choice? Third? Fourth? Mark One Service for Each Choice.

<u>1st Choice</u>	<u>2nd Choice</u>	<u>3rd Choice</u>	<u>4th Choice</u>
Army ( 1)	Army ( 1)	Army ( 1)	Army ( 1)
Navy ( 2)	Navy ( 2)	Navy ( 2)	Navy ( 2)
Air Force ( 3)	Air Force ( 3)	Air Force ( 3)	Air Force ( 3)
Marines ( 4)	Marines ( 4)	Marines ( 4)	Marines ( 4)

Variable Names:

Q14A 1st Choice  
Q14B 2nd Choice  
Q14C 3rd Choice  
Q14D 4th Choice

Tape Positions:

67-68  
69-70  
71-72  
73-74

Codes: 01 Army  
02 Navy  
03 Air Force  
04 Marines  
-1 Missing or Uncodable

- 15 If you could choose the length of your first enlistment, how many years of active duty would you sign up for? (Mark Number Below.)

1 year.....	01	6 years.....	06
2 years.....	02	7 years.....	07
3 years.....	03	8 years.....	08
4 years.....	04	9 years.....	09
5 years.....	05	10 years.....	10

Variable Name: Q15

Tape Position: 75-76

Codes: 01-10 1 Year-10 Years  
-1 Missing or Uncodable

16A The next question is about your military job. Please tell us if each thing listed below is TRUE or NOT TRUE for you.

	TRUE FOR ME	NOT TRUE FOR ME
I knew the kind of military job I wanted before I came in today	1	0
I knew the kind of military job I qualified for before I came in today	1	0
I didn't qualify for the kind of military job I wanted	1	0
The counselor told me about several jobs I didn't want	1	0
A job I wanted <u>wasn't</u> available for the time I wanted to go	1	0
The counselor told me which military job was best for me	1	0
The military job I got is different from the kind I had in mind	1	0
The kind of military job I got didn't really matter to me	1	0

## Variable Names:

Q16A1	Knew Job Wanted	77-78
Q16A2	Knew Job Qualified For	79-80
Q16A3	Didn't Qualify for Job Wanted	81-82
Q16A4	Counselor Told About Several Jobs	83-84
Q16A5	Job Wasn't Available for Time Wanted	85-86
Q16A6	Counselor Told Which Job Best	87-88
Q16A7	Job Different From Wanted	89-90
Q16A8	Job Didn't Matter	91-92

## Tape Positions:

Codes: 01 True For Me  
 00 Not True For Me  
 -1 Missing or Uncodable

16B How satisfied are you with the military job you signed up for?

Very satisfied.....1  
 Somewhat satisfied.....2  
 Neither satisfied nor dissatisfied...3  
 Somewhat dissatisfied.....4  
 Very dissatisfied.....5

Variable Name: Q16B

Tape Position: 93-94

Codes: 01-05 As Above  
 -1 Missing or Uncodable

17 Did you sign up for a job which pays a CASH ENLISTMENT BONUS  
 when you complete your job training?

Yes.....01 (ANSWER A AND B)  
 No.....00 (GO TO Q.18)  
 Don't know.....-8 (GO TO Q.18)

Variable Name: Q17

Tape Position: 95-96

Codes: 01 Yes  
 00 No  
 -8 Don't Know  
 -1 Missing or Uncodable

NOTE: QUESTIONS 17A AND 17B ARE SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 17 FOR SKIP INSTRUCTION.

A How much is your bonus?

Mark One

\$500.....	0
\$1,000.....	0
\$1,500.....	0
\$2,000.....	0
\$2,500.....	0
\$3,000.....	0

Variable Name: Q17A

Tape Position: 97-100

Codes: 0500-3000 As Above, Bonus Amounts  
-1 Missing or Uncodable  
-3 Not Applicable

Note: Code -3, Not Applicable, includes both individuals who did not sign up for a bonus and who do not know if they signed up for a bonus (Q17 = 00 or -8).

B Suppose the job you signed up for did not pay a cash bonus.  
What would you have done?

Mark One

Signed up for the <u>same</u> <u>job</u> anyway.....	1
Signed up for a <u>different</u> <u>job</u> in my service.....	2
Tried to join a <u>different</u> <u>service</u> .....	3
Not enlisted at all.....	4

Variable Name: Q17B

Tape Position: 101-102

Codes: 01-04 As Above  
-1 Missing or Uncodable  
-3 Not Applicable

Note: See Note Q17A.

- 18 Suppose a new enlistee were unhappy with military life. How easy or difficult do you think it would be for him (or her) to get out of the military before the end of the enlistment period that he (or she) signed up for?

Very easy.....1  
 Fairly easy.....2  
 Somewhat difficult.....3  
 Very difficult.....4  
 Almost impossible.....5

Variable Name: Q18

Tape Position: 103-104

Codes: 01-05 As Above  
 -1 Missing or Uncodable

- 19 In the area where you now live, which services offer a 2 YEAR ENLISTMENT CONTRACT? (Mark all that apply.)

Army.....1  
 Navy.....1  
 Air Force.....1  
 Marines.....1  
 None of the  
 Services.....1  
 I don't know.....1

Variable Names:

Flags: F19A Tape Positions:

Q19A	Army	105-106
Q19B	Navy	107-108
Q19C	Air Force	109-110
Q19D	Marines	111-112
Q19E	None	113-114
Q19F	I Don't Know	115-116

Codes: 01 Yes  
 -1 Missing or Uncodable  
 00 Not Marked

Note: In processing items which ask the respondent to "Mark all that Apply," each response category is treated as a separate variable. Code 01 indicates that the response category was marked and Code 00 indicates that the specific response category was not marked but that another category in the series was marked. Code -1, Missing, is assigned only in those cases where the respondent left all the response categories of the question blank.

20 In the area where you now live, which services offer a  
GUARANTEED LOCATION for the first 18 months after  
 job training? (Mark all that apply.)

Army.....1

Tape Position: 148-149

Codes: 01-60 As Above  
 -1 Missing or Uncodable

Variable Name: Q25B

Tape Position: 150-151

Codes: 01-60 As Above  
 -1 Missing or Uncodable

Variable Name: Q25C

Tape Position: 152-153

Codes: 01-60 As Above  
 -1 Missing or Uncodable

Note: Optical scanning form provided coding "bubbles" next to the name of each location or foreign country for each part of the question,

e.g. [A] [B] [C] Alabama

[A] [B] [C] Alaska

26 What COUNTY were you living in when you decided to enlist?  
 Write the name of the county in the space below.

COUNTY: \_\_\_\_\_

I don't know the name of the county..... -8

Variable Name: Q26

Tape Position: 154-155

Codes: -8 Doesn't Know County  
 -3 Blank, see Note.

Note: Optical scanning process could not distinguish between questionnaires on which the County was written in and those which were left blank by the respondent. A code of -3, therefore simply indicates that the respondent did not mark the "Don't Know" category. This item could be used in a manual verification of Zip Codes (Q27) or as a method of filling in missing values of Q27.

- 27 What is the ZIP CODE of the place you were living when you decided to enlist? Record the ZIP CODE in the box to the right.

I don't know the Zip Code..... -8

ZIP CODE

36 Have you ever attended a vocational, technical or business school?

No.....0 (GO TO Q.37)  
 Yes.....1 (ANSWER A)

Variable Name: Q36

Tape Position: 229-230

Codes: 01 Yes  
 00 No  
 -1 Missing or Uncodable

NOTE: QUESTION 36A IS SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 36 FOR SKIP INSTRUCTIONS.

A Did you complete your course?

Yes.....1

No.....0

Variable Name: Q36A

Tape Position: 231-232

Codes: 01 Yes

00 No

-1 Missing or Uncodable

-3 Not Applicable, i.e., did not attend voc/tech/  
business school.

37 Today you were told about an educational benefit known as  
the Veteran's Educational Assistance Program (VEAP).

If you decide to participate, you must contribute at least  
\$50 a month from your military pay to an educational fund.  
The Veteran's Administration then adds \$2 for every \$1 you  
contribute. You can use the money for your education after  
you finish your first term of service.

A Do you plan to participate in VEAP?

Mark One

Yes.....1

No.....0

Don't know...-8

Variable Name: Q37A

Tape Position: 233-234

Codes: 01 Yes

00 No

-8 Don't Know

-1 Missing or Uncodable

B If you were allowed to contribute less than \$50 per month, would you participate in the program?

Yes.....1

No.....0

Variable Name: Q37B

Tape Position: 235-236

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable

38 Did you sign up for a job that pays an EXTRA VEAP EDUCATION BONUS at the end of your first enlistment?

No.....0 (GO TO Q. 39)

Yes.....1 (ANSWER A AND B)

Variable Name: Q38

Tape Position: 237-238

Codes: 00 No  
01 Yes  
-1 Missing or Uncodable

NOTE: QUESTIONS 38A AND 38B ARE SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 38 FOR SKIP INSTRUCTIONS.

A How much will your educational bonus be?

\$1,000..... 0

\$2,000..... 0

\$3,000..... 0

\$4,000..... 0

Variable Name: Q38A

Tape Position: 239-242

Codes: 1000-4000 As Above, Bonus Amounts  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., no extra VEAP Bonus

B Suppose the job you signed up for did not pay an extra VEAP education bonus. What would you have done?

Signed up for the same  
job anyway.....1  
 Signed up for a different  
job in my service.....2  
 Tried to join a different  
service.....3  
 Not enlisted at all.....4

Variable Name: Q38B

Tape Position: 243-244

Codes: 01-04 As Above  
 -1 Missing or Uncodable  
 -3 Not Applicable, i.e., no extra VEAP Bonus

39 What is the highest grade or year of regular school you think you will ever complete in the future? (If your highest grade will be a GED certificate, mark 12.)  
 Mark One Below.

ELEMENTARY: 1 2 3 4 5 6 7 8

HIGH SCHOOL: 9 10 11 12

YEARS OF COLLEGE: 1 2 3 4 5 6 7 8 or more

Variable Name: Q39

Flag: F39

Tape Position: 245-246

Codes: 01-08 Elementary  
 09-12 High School (1-4 Years)  
 13-20 College (1-8 Years Credit)  
 -1 Missing or Uncodable

Note: If more than one grade marked, highest grade selected.  
 If highest grade selected, XV14=1, tape position 533.

IV. MARRIAGE AND CHILDREN

NOTE: QUESTIONS IN THIS SECTION ARE SKIPPED BY SOME RESPONDENTS,  
DEPENDING ON RESPONSE TO QUESTION 40 (MARITAL STATUS.)

- IF MARRIED, Respondent should have answered Questions  
40, 41, 42, 43, 43A, 44A, 44B
- IF MARRIED, and SPOUSE IN MILITARY, Respondent should  
have answered Questions 40, 41, 42, 43, 43A, 44A, 44B
- IF SINGLE, SEPARATED, DIVORCED OR WIDOWED, Respondent  
should have answered Question 40, 40A, 40B, 44A, and  
44B

40 I am now:

Mark One

Married.....1 (GO TO Q.41)  
Single, never married.....2 (ANSWER A AND B)  
Separated.....3 (ANSWER A AND B)  
Divorced.....4 (ANSWER A AND B)  
Widowed.....5 (ANSWER A AND B)

Variable Name: Q40

Flag: F40

Tape Position: 247-248

Codes: 01-05 As Above  
-1 Missing or Uncodable

A Are you engaged to be married?

Yes.....1  
No.....0

-1 Missing or Uncodable  
-3 Not Applicable, i.e., not married

Note: If more than one grade marked, highest selected.  
If highest selected, XV15=1, tape position 534.

- 43 Is your spouse now on active duty in the military?

Yes.....1 (GO TO Q.44A)  
No.....0 (ANSWER A)

Variable Name: Q43

Tape Position: 257-258

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., not married

A Does your spouse plan to enlist in the military in the next 12 months?

Yes.....1  
No.....0

Variable Name: Q43A

Tape Position: 259-260

Codes: 00 Not Planning  
01 Yes Planning  
02 Spouse in military  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., not married

Note: Code 02, Spouse in Military, was assigned if R is married, marked Q43 = 01 and left Q43A blank. Code -3, Not Applicable, was assigned if R is not married (Q40 = 02-05) and this item is blank.

44A How many children do you have now? Mark Number Below.

None 1 2 3 4 5 or more

Variable Name: Q44A

Tape Position: 261-262

Codes: 00-04 0-4 Children  
05 5 or More Children  
-1 Missing or Uncodable

B In all, how many children do you expect to have? (Mark One)

I don't know if I will have children.....-8

None 1 2 3 4 5 or more

Variable Name: Q44B

Flag: F44B Tape Position: 263-264

Codes: 00-04 0-4 Children  
05 5 or More Children  
-8 Don't Know  
-1 Missing or Uncodable

V. WORKING AND JOBS

45 Since you were 16 years old, have you had a full time or  
part time job?

Yes.....1 (ANSWER Q. 46-53)

No.....0 (GO TO Q. 54)

Variable Name: Q45

Tape Position: 265-266

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable

NOTE: QUESTIONS 46 - 53 ARE SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 45 FOR SKIP INSTRUCTION. Respondents  
who never had a full-time or part-time job do not answer  
these items.

46 Since you were 16 years old, have you had a job where you  
worked 30 HOURS PER WEEK OR MORE?

Yes.....1

No.....0

Variable Name: Q46

Flag: F46

Tape Position: 267-268

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable  
-3 Not Applicable

Note: Code -3, Not Applicable, in Q46-Q49, Q50 and Q53  
indicates that R. did not have a full time or part  
time job since age 16.

47 Have you ever received Unemployment Compensation?

Yes.....1

No.....0

Variable Name: Q47

Tape Position: 269-270

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable  
-3 Not Applicable (See Note: Q46)

QUESTIONS 48 - 53 ARE ABOUT THE JOB YOU HAVE NOW OR THE JOB YOU HAD THE LAST TIME YOU WORKED.

48 When did you start working at this job?

MONTH	YEAR
January..... 01	1979..... 79
February..... 02	1978..... 78
March..... 03	1977..... 77
April..... 04	1976..... 76

71E Which other services did he tell you to talk to? (Mark All That Apply)

Army.....1  
Navy.....1  
Air Force.....1  
Marines.....1

Variable Names:

Q71E1 Referred to Army  
Q71E2 Referred to Navy  
Q71E3 Referred to Air Force  
Q71E4 Referred to Marines

Tape Positions:

417-418  
419-420  
421-422  
423-424

Codes: 00 Not Marked  
01 Yes  
-1 Missing or Uncodable  
-3 Not Applicable

Note: Code 00, Not Marked, In Q71E1-Q71E4 means that R did not mark the service in the item but did mark another service in the series. Code -3, Not Applicable, means that no referral was involved, i.e., Q71D = 00. Code -1, Missing, means that a referral was involved, i.e., Q71D = 01, but R left these items blank. Also see Note Q19A-Q19F.

72A The SECOND recruiter I talked to was from

Mark One

I only talked to  
one recruiter.....-7 (GO TO Q.73)  
Army.....1  
Navy.....2  
Air Force.....3  
Marines.....4

Variable Name: Q72A

Tape Position: 425-426

Codes: 01-04 As Above  
-7 Only Saw One Recruiter  
-1 Missing or Uncodable

NOTE: QUESTION 72B, 72C AND 72D ARE SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 72A FOR SKIP INSTRUCTION.

THE NEXT QUESTIONS ARE ABOUT THE SECOND RECRUITER YOU TALKED TO.

72B How did you meet this recruiter?

Mark One

I called or went to the office..1  
He called or wrote to me.....2  
I met him some other way.....3

Variable Name: Q72B

Tape Position: 427-428

Codes: 01-03 As Above  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., saw only one recruiter

72C When did you first talk to this recruiter?

MONTH		YEAR	
January.....	01	1979.....	79
February.....	02	1978.....	78
March.....	03	1977.....	77
April.....	04	1976.....	76
May.....	05	1975.....	75
June.....	06	1974.....	74
July.....	07	1973.....	73
August.....	08	1972.....	72
September.....	09	1971.....	71
October.....	10	1970.....	70
November.....	11	Before 1970..	69
December.....	12		

Variable Name: Q72C1 (Month)

Tape Position: 429-430

Codes: 01-12 January-December  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., saw only one recruiter

Variable Name: Q72C2 (Year)

Tape Position: 431-432

Codes: 79-70 Year, 1979-1970  
69 Before 1970  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., saw only one recruiter

Note: If more than one year marked, lowest year selected.  
If lowest year selected XV19=1, tape position 538.

72D Did this recruiter tell you to talk to recruiters from OTHER  
services?

No.....0 (GO TO Q.73)  
Yes.....1 (ANSWER E)

Variable Name: Q72D

Tape Position: 433-434

Codes: 00 No  
01 Yes  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., saw only one recruiter

NOTE: QUESTION 72E IS SKIPPED BY SOME RESPONDENTS.  
REFER TO QUESTION 72D FOR SKIP INSTRUCTION.

72E Which other services did he tell you to talk to? (Mark All That Apply)

Army.....1  
Navy.....1  
Air Force.....1  
Marines.....1

Variable Names:

Tape Positions:

Q72E1	Referred to Army	435-436
Q72E2	Referred to Navy	437-438
Q72E3	Referred to Air Force	439-440
Q72E4	Referred to Marines	441-442

Codes: 00 Not Marked  
01 Yes  
-7 No Referral from second recruiter  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., saw only one recruiter

Note: Code 00, Not Marked, in Q72E1-Q72E4 means that R did not mark the service in the item but did mark another service in the series. Code -7, No Referral, means that no referral was involved, i.e. Q72D = 00. Code -3, Not Applicable, means that R never saw a second recruiter, i.e., Q72A = -7. Code -1, Missing, means that a referral was involved, i.e. Q72D = 01, but R left these items blank. Also see Note Q19A-Q19F.

73 Everyone enlisting in the military must take a three-hour written test called the ASVAB.

Including today, how many times have you taken the ASVAB test?

1 2 3 4 or more

Variable Name: Q73

Tape Position: 443-444

Codes: 01-04 As Above  
-1 Missing or Uncodable

74 When did you make your final decision to enlist in the military?

MONTH	YEAR
January..... 01	1979..... 79
February..... 02	1978..... 78
March..... 03	1977..... 77
April..... 04	1976..... 76
May..... 05	1975..... 75
June..... 06	1974..... 74
July..... 07	1973..... 73
August..... 08	1972..... 72
September..... 09	1971..... 71
October..... 10	1970..... 70
November..... 11	Before 1970.. 69
December..... 12	

Variable Name: Q74A (Month)

Flag: F74A

Tape Position: 445-446

Codes: 01-12 January-December  
-1 Missing or Uncodable

Variable Name: Q74B (Year)

Flag: F74

Tape Position: 447-448

Codes: 79-70 Year, 1979-1970  
69 Before 1970  
-1 Missing or Uncodable

Note: If more than one year marked, lowest year selected.  
If lowest year selected, XV20 = 1, tape position 539.

NOTE: QUESTION 75A-78A ARE NOT ANSWERED BY ALL RESPONDENTS.  
QUESTIONS ARE SKIPPED AS A FUNCTION OF THE SERVICE THE  
RESPONDENT IS JOINING.

- IF ARMY, then Question 75A is skipped.
- IF NAVY, then Question 76A is skipped.
- IF AIR FORCE, then Question 77A is skipped.
- IF MARINE CORPS, then Question 78A is skipped.

THE NEXT QUESTIONS ARE ABOUT EACH OF THE SERVICES.

75 ARE YOU JOINING THE ARMY?

YES.....1 (GO TO Q.76)  
NO.....0 (ANSWER A)

Variable Name: Q75

Flag: F75

Tape Position: 449-450

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable

A. If only the Army had offered each item listed below, would you  
have joined the Army instead of the service you joined today?  
MARK YES OR NO FOR EACH ITEM.

YES, I would have joined the Army	NO, I would not have joined the Army
--	---

IF ONLY THE ARMY OFFERED:

\$150 more per month in basic pay	1	2
A two year enlistment contract	1	2
A general enlistment bonus of \$2000	1	2

Variable Names:

Tape Positions:

Q75A1 \$150 More Pay	451-452
Q75A2 2 Year Contract	453-454
Q75A3 \$2000 Enlistment Bonus	455-456

Codes: 01 Yes  
02 No  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., joining Army

76 ARE YOU JOINING THE NAVY?

YES.....1 (GO TO Q.77)

NO.....0 (ANSWER A)

Variable Name: Q76

Tape Position: 457-458

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable

A. If only the Navy had offered each item listed below, would you have joined the Navy instead of the service you joined today?  
MARK YES OR NO FOR EACH ITEM

YES,  
I would  
have joined  
the Navy

NO,  
I would not  
have joined  
the Navy

IF ONLY THE NAVY OFFERED:

\$150 more per month in  
basic pay

1

2

A two year enlistment  
contract

1

2

A guaranteed location for  
the first 18 months after  
training

1

2

Variable Names:

Tape Positions:

Q76A1 \$150 More Pay

459-460

Q76A2 2 Year Contract

461-462

Q76A3 Guaranteed Location

463-464

Codes: 01 Yes  
02 No  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., joining Navy

## 77 ARE YOU JOINING THE AIR FORCE?

YES.....1 (GO TO Q.78)  
 NO.....0 (ANSWER A)

Variable Name: Q77

Tape Position: 465-466

Codes: 01 Yes  
 00 No  
 -1 Missing or Uncodable

A. If only the Air Force had offered each item listed below, would you have joined the Air Force instead of the service you joined today? MARK YES OR NO FOR EACH ITEM.

	YES, I would have joined the Air Force	NO, I would not have joined the Air Force
\$150 more per month in basic pay	1	2
A two year enlistment contract	1	2
A guaranteed location for the first 18 months after training	1	2

IF ONLY THE AIR FORCE OFFERED:

\$150 more per month in basic pay	1	2
A two year enlistment contract	1	2
A guaranteed location for the first 18 months after training	1	2

Variable Names:

Tape Positions:

Q77A1	\$150 More Pay	467-468
Q77A2	2 Year Contract	469-470
Q77A3	Guaranteed Location	471-472

Codes: 01 Yes  
 02 No  
 -1 Missing or Uncodable  
 -3 Not Applicable, i.e., joining Air Force

## 78 ARE YOU JOINING THE MARINES?

YES.....1 (GO TO Q.79)

NO.....0 (ANSWER A)

Variable Name: Q78

Flag: F75

Tape Position: 473-474

Codes: 01 Yes  
 00 No  
 -1 Missing or Uncodable

A. If only the Marines had offered each item listed below, would you have joined the Marines instead of the service you joined today?  
 MARK YES OR NO FOR EACH ITEM.

	YES, I would have joined the Marines	NO, I would not have joined the Marines
--	---	--

## IF ONLY THE MARINES OFFERED:

\$150 more per month in basic pay	1	2
A two year enlistment contract	1	2
A general enlistment bonus of \$2000	1	2

Variable Names:

Q78A1 \$150 More Pay  
 Q78A2 2 Year Contract  
 Q78A3 \$2000 Bonus

Tape Positions:

475-476  
 477-478  
 479-480

Codes: 01 Yes  
 02 No  
 -1 Missing or Uncodable  
 -3 Not Applicable, joining Marines

79 How did each of the people listed below feel about your enlisting in the military?

	Thought It Was A Good Idea	Thought It Was <u>Not</u> A Good Idea	I Didn't Talk To This Person or Does Not Apply To Me
A Father (or male guardian)	1	2	3
B Mother (or female guardian)	1	2	3
C Other relatives	1	2	3
D Girlfriend/boyfriend or spouse	1	2	3
E Friend(s) with military experience	1	2	3
F Friend(s) with no military experience	1	2	3
G High school counselor	1	2	3

## Variable Names:

Q79A	Father's Feelings	481-482
Q79B	Mother's Feelings	483-484
Q79C	Relative's Feelings	485-486
Q79D	Girl Friend/Boy Friend/Spouse Feelings	487-488
Q79E	Military Friends Feelings	489-490
Q79F	Non-Military Friends Feelings	491-492
Q79G	Counselor's Feelings	493-494

## Tape Positions:

Codes: 01 Good Idea  
 02 Not Good Idea  
 03 Doesn't Apply/Didn't Talk to Person  
 -1 Missing or Uncodable

80 Here are some reasons people have for choosing the service they join. Please mark if each one is TRUE or NOT TRUE for you.

	TRUE FOR ME	NOT TRUE FOR ME
I chose my service because I have friends or relatives who had joined my service	1	0
I chose my service because it offered the short enlistment period I wanted	1	0
I chose my service because it offered the kind of military job I wanted	1	0
I chose my service because it offered the best locations for assignments after training	1	0
I chose my service because it offered enlistment bonuses	1	0

## Variable Names:

## Tape Positions:

Q80A	Serv. Choice: Friends/Relatives	495-496
Q80B	Serv. Choice: Short Enlistment	497-498
Q80C	Serv. Choice: Military Job	499-500
Q80D	Serv. Choice: Best Locations	501-502
Q80E	Serv. Choice: Enlistment Bonus	503-504

Codes: 01 True For Me  
 00 Not True For Me  
 -1 Missing or Uncodable

81 If you were not able to enlist in the service you joined today, which services would you try to join? MARK ALL THAT APPLY.

Army.....1  
 Navy.....1  
 Air Force.....1  
 Marines.....1  
 I would not try to join  
 another service.....1

Variable Names:

Flag: F81

Tape Positions:

Q81A	If ineligible would join Army	505-506
Q81B	If ineligible would join Navy	507-508
Q81C	If ineligible would join Air Force	509-510
Q81D	If ineligible would join Marines	511-512
Q81E	If ineligible would not join	513-514

Codes: 00 Not Marked  
 01 Yes  
 -1 Missing or Uncodable

Note: See Note Q19A-Q19F.

82 Do you think you will reenlist at the end of your first enlistment?

Mark One

Yes, definitely.....1  
 Yes, probably.....2  
 No, probably not.....3  
 No, definitely not.....4

Variable Name: Q82

Tape Position: 515-516

Codes: 01-04 As Above  
 -1 Missing or Uncodable

83 Altogether, how long do you think you will stay on active  
duty in the military?

Mark One

Less than 4 years.....1  
 4 - 9 years.....2  
 10 - 19 years.....3  
 20 years or more.....4

Variable Names: Q83

Tape Position: 517-518

Codes: 01-04 As Above  
-1 Missing or Uncodable

84 How satisfied or dissatisfied do you think you will be with military life? Use the line below to record your answer. People who expect to be Very Satisfied would circle 7. People who think they will be Very Dissatisfied would circle 1. Other people may have opinions somewhere between 1 and 7. Mark one number on the line below.

VERY  
DISSATISFIED

VERY  
SATISFIED

o o o o o o o  
1 2 3 4 5 6 7

Variable Name: Q84

Tape Position: 519-520

Codes: 01-07 As Above  
-1 Missing or Uncodable

85 What time is it now?

TIME: \_\_\_\_\_

Note: Information not coded, used to calculate XV4.

## Extra Variable

XV4    Minutes for completion

Variable Name: XV4

Tape Position: 521-522

Codes: 00 -99 Minutes  
-1 Missing or Uncodable  
-4 Incomplete data entered by R

Note: Editing staff calculated time required for completion on the basis of respondent entries at the beginning and end of the questionnaire.

## Extra Variable

 -4 Incomplete or out-of-range data entered by R

Note: Editing staff assigned an AFES Identification number to each questionnaire. The table above gives this assignment both in numeric and in alphabetical order.

Extra Variable
----------------

XV6 - XV20    Highest/Lowest Indicators (See Below)
---

## Variable Names:

## Tape Position:

XV6	Highest Indicator for QB1	525
XV7	Highest Indicator for Q3A1	526
XV8	Lowest Indicator for Q29C3	527
XV9	Highest Indicator for Q30A	528
XV10	Lowest Indicator for Q31A2	529
XV11	Highest Indicator for Q32	530
XV12	Highest Indicator for Q33	531
XV13	Highest Indicator for Q34	532
XV14	Highest Indicator for Q39	533
XV15	Highest Indicator for Q42	534
XV16	Lowest Indicator for Q48B	535
XV17	Lowest Indicator for Q49B	536
XV18	Lowest Indicator for Q71C2	537
XV19	Lowest Indicator for Q72C2	538
XV20	Lowest Indicator for Q74B	539

Codes: 1    Highest/Lowest logic applied  
 0    Logic not required

Note: For a subset of items, the contractor was provided with instructions for resolving respondent multiple entries. If only one response was required but the respondent marked two, the contractor coded either the highest or lowest value, depending on the item. Whenever the multiple logic instruction was used, a code was set in one of the above variables, XV6 - XV20.

VI. ITEM-BY-ITEM SPECIFICATIONS FOR 1979 DOD SURVEY OF PERSONNEL  
ENTERING MILITARY SERVICE: FORM 2

This section contains the detailed information necessary for using specific variables from this questionnaire for analysis. Each question from the survey instrument is reproduced as it appears on the printed questionnaire, modified somewhat from the optical scanning forms which were used in the actual data collection. The format and conventions used in this section are identical to those described in the introduction to Section V, pages 29-31. The manual user is encouraged to refer to those pages before using the material in this section.

## COVER PAGE

DoD-MRAL Emblem

RCS #DD-M(SA)-1516  
FORM 2DEPARTMENT OF DEFENSE  
1979 SURVEY OF PERSONNEL ENTERING MILITARY SERVICE

The Department of Defense is conducting a survey of people entering military service. You have been selected to participate in this important survey. Please read the instructions below before you begin the questionnaire.

## Note:

Public Law 93-573, called the Privacy Act of 1974, requires that all individuals be informed of the purposes and uses to be made of the information that is collected.

- o The Department of Defense may collect the information requested in the DoD Survey of Personnel Entering Military Service under the authority of 10 United States Code 136.
- o Providing information in this questionnaire is voluntary. Failure to respond to any particular questions will not result in any penalty for the respondent.
- o The information collected in the survey will be used to evaluate and improve military personnel and recruiting policies.
- o The information will be used for research and analysis purposes only. The Rand Corporation under contract to the Assistant Secretary of Defense - Manpower, Reserve Affairs and Logistics (OASD-MRA+L), has primary research and analysis responsibility.

## HOW TO FILL OUT THIS SURVEY

- I. Use a NO. 2 PENCIL.
- II. Read each question carefully. Make a HEAVY BLACK MARK that FILLS THE CIRCLE next to your answer.
- III. If the question asks for a DATE, mark the MONTH AND YEAR.

EXAMPLE: When did you first talk to this recruiter? Mark the Month and Year. If you talked to this recruiter in APRIL 1978, you would mark your answer as shown below.

-----MONTH-----		-----YEAR-----	
<input type="checkbox"/> January	<input type="checkbox"/> July	<input type="checkbox"/> 1979	<input type="checkbox"/> 1973
<input type="checkbox"/> February	<input type="checkbox"/> August	<input type="checkbox"/> 1978	<input type="checkbox"/> 1972
<input type="checkbox"/> March	<input type="checkbox"/> September	<input type="checkbox"/> 1977	<input type="checkbox"/> 1971
<input type="checkbox"/> April	<input type="checkbox"/> October	<input type="checkbox"/> 1976	<input type="checkbox"/> 1970 or before
<input type="checkbox"/> May	<input type="checkbox"/> November	<input type="checkbox"/> 1975	
<input type="checkbox"/> June	<input type="checkbox"/> December	<input type="checkbox"/> 1974	

- IV. If the question asks for a NUMBER, you should do THREE THINGS:

- o Write the numbers in the BOXES, making sure that the LAST NUMBER is always placed in the RIGHT-HAND BOX.
- o FILL in the UNUSED BOXES with ZEROS.
- o Mark the MATCHING CIRCLE BELOW EACH BOX.

EXAMPLE: About how much did you earn per hour at your last job? Suppose you earned \$ 2.50 per hour. You would enter the number as shown below.

DOLLARS	CENTS
\$ 02	. 50
00	00
11	11
22	22
....ETC.	

- V. Some questions also contain instructions about what to do next. The instruction depends on the answer you mark.

Q.46. Since you were 16 years old have you ever had a full time or part time job?

- ☐ Yes - ANSWER Q. 47-53  
☐ No - GO TO Q.54

EXAMPLE: Suppose you have never had a full time or part time job. You would mark your answer as shown, then GO TO Q.54. This instruction tells you that you should leave QS. 47-53 BLANK, and start answering again at Q.54. In many of these questions, arrows will point to the next question you should answer.

## Extra Variable

XV1      Questionnaire Form Code

Variable Name: XV1

Tape Position: 1

Codes: 2      Form 2

Note: A variant code was assigned to each questionnaire during  
the processing.

## Extra Variable

XV2      Questionnaire Processing Number

Variable Name: XV2

Tape Position: 2-7

Codes: 000001 - 999999      Sequential number

Note: A unique questionnaire number was assigned during  
the processing.

I. YOUR ENLISTMENT

A. What time is it now?

TIME: \_\_\_\_\_

Note: Information not coded, used to calculate XV4,  
tape positions 595-596.

B What is today's date?

MONTH	DAY
January.....01	<input type="checkbox"/>
February.....02	<input type="checkbox"/>
March.....03	
April.....04	
May.....05	
June.....06	
July.....07	
August.....08	
September.....09	
October.....10	
November.....11	
December.....12	

Variable Name: QB1 (Month)

Flag: FB1

Tape Position: 8-9

Codes: 01-12 January-December  
-1 Missing or Uncodable

Notes: If more than one month marked, the highest number will be selected. If the highest number is selected XV6=1, tape position 599. Wave 1 was administered April-June, 1979 depending on the AFEES.

Variable Name: QB2 (Day)

Tape Position: 10-11

Codes: 01-31 Day of Month  
-1 Missing or Uncodable  
-4 Incomplete or out of range data entered by R

1 Which service are you enlisting in today?

Mark One

Army.....1  
Navy.....2  
Air Force.....3  
Marines.....4

Variable Name: Q1

Flag: F1

Tape Position: 12-13

Codes: 01-04 As Above  
-1 Missing or Uncodable

2 Is this sentence TRUE or NOT TRUE for you?

Today is the FIRST TIME I have ever been sworn into the military.  
(Mark One)

TRUE for me.....1 (GO TO Q.3)  
NOT TRUE for me.....0 (SEE SPECIAL INSTRUCTIONS BELOW)

SPECIAL INSTRUCTIONS: IF YOU HAVE EVER BEEN SWORN INTO THE  
MILITARY BEFORE TODAY, PLEASE TELL THE SURVEY ADMINISTRATOR NOW.  
DO NOT CONTINUE THE SURVEY.

Variable Name: Q2

Flag: F2

Tape Position: 14-15

Codes: 01 True For Me, First Swearing In  
00 Not True For Me, Not First Swearing In  
-1 Missing or Uncodable

Note: Rs who marked Code 01 may not be eligible for survey.  
See discussion of sample.

3 Are you shipping out TODAY?

Mark One

Yes.....1 (GO TO Q.4)  
No.....0 (ANSWER A AND B)

Variable Name: Q3

Flag: F3

Tape Position: 16-17

Codes: 01 Yes  
00 No  
-1 Missing or Uncodable

Note: QUESTIONS 3A AND 3B ARE NOT ANSWERED BY ALL RESPONDENTS.  
SEE QUESTION 3 FOR SKIP INSTRUCTIONS.

A When will you enter active duty (ship out)?

MONTH	DAY	YEAR
January.....01	<input type="text"/>	1979... 79
February.....02	<input type="text"/>	
March.....03		1980... 80
April.....04		
May.....05		
June.....06		
July.....07		
August.....08		
September.....09		
October.....10		
November.....11		
December.....12		

Variable Name: Q3A1 (Month)

Tape Position: 18-19

Codes: 01-12 January-December  
-1 Missing  
-3 Not Applicable, i.e., shipping out today

Note: If more than one month marked, highest number will be selected. If highest number selected XV7=1, tape position 600.

Variable Name: Q3A2 (Day)

Tape Position: 20-21

Codes: 01-31 Day of Month  
-1 Missing or Uncodable  
-3 Not Applicable, i.e., shipping out today  
-4 Incomplete or out-of-range data entered by R

Variable Name: Q3A3 (Year)

Tape Position: 22-23

Codes: 79 1979  
 80 1980  
 -1 Missing or Uncodable  
 -3 Not Applicable, i.e., shipping out today

B What is the main reason you are waiting to enter active duty?

Mark One

I want to finish school.....1  
 I want to keep working until that time.....2  
 The job or location I wanted is not  
 available until that time.....3  
 I need time to take care of business and  
 personal affairs.....4  
 I want to take some time off before I  
 go into the military.....5  
 I am waiting for military transportation.....6

Variable Name: Q3B

Tape Position: 24-25

Codes: 01-06 As Above  
 -1 Missing or Uncodable  
 -3 Not Applicable, i.e., shipping out today

4 How many years of active duty  
 have you signed up for? Mark the number below.

1 year or less..... 01  
 2 years..... 02  
 3 years..... 03  
 4 years..... 04  
 5 years..... 05  
 6 years..... 06  
 7 years..... 07  
 8 years..... 08  
 I don't know.....-8

Variable Name: Q4

Tape Position: 26-27

Codes: 01-08 Years, As Above  
-8 Don't Know  
-1 Missing or Uncodable

Note: Rs who marked Code 01 may not be eligible for survey.  
See discussion of sample.

5 When I enter active duty, my MONTHLY BASIC PAY will be:

\$     PER  
MONTH

I don't know.....-8

Variable Name: Q5

Tape Position: 28-30

Codes: 100-900 \$100-900  
-8 Don't Know  
-1 Missing or Uncodable  
-4 Incomplete or out of range data entered by R

6 Below are some reasons that people join the military. Please tell us if each one is TRUE or NOT TRUE for you.

	TRUE FOR ME	NOT TRUE FOR ME
A. I enlisted because I can get money for a college education	1	0
B. I enlisted to get trained in a skill that will help me get a civilian job when I get out	1	0
C. I enlisted to prove that I can make it	1	0
D. I enlisted because it is a family tradition to serve	1	0
E. I enlisted because I can earn more money than I could as a civilian	1	0
F. I enlisted because I want to serve my country	1	0
G. I enlisted to get away from a personal problem	1	0
H. I enlisted because I want to travel and live in different places	1	0
I. I enlisted because the military will give me a chance to better myself in life	1	0
J. I enlisted to give myself a chance to be away from home on my own	1	0
K. I enlisted because I was unemployed and couldn't find a job	1	0

Q10H	Job Didn't Matter	79-80

Codes: 01 True for Me  
 00 Not True for Me  
 -1 Missing or Uncodable

11 How satisfied are you with the military job you signed up for?

Mark One

Very satisfied.....1  
Somewhat satisfied.....2  
Neither satisfied nor dissatisfied...3  
Somewhat dissatisfied.....4  
Very dissatisfied.....5

Variable Name: Q11

Tape Position: 81-82

Codes: 01-05 As Above  
-1 Missing or Uncodable

12 If you could choose the number of years of your first enlistment,  
how many years of active duty would you sign up for? Mark  
Number Below.

1 year	6 years
2 years	7 years
3 years	8 years
4 years	9 years
5 years	10 years

Variable Name: Q12

Tape Position: 83-84

Codes: 01-10 1-10 Years  
-1 Missing or Uncodable

13 After you finish your job training where do you think you will be stationed?

At a base overseas.....1  
 At Sea.....2  
 IN THE U.S:  
 less than 100 miles from  
 where I live now.....3  
 100-500 miles from where I live now.....4  
 More than 500 miles from where I live  
 now.....5

Variable Name: Q13

Tape Position: 85-86

Codes: 01-05 As Above  
 -1 Missing or Uncodable

14 As part of your enlistment contract, did you get a GUARANTEED LOCATION for your first assignment after you finish your job training?

Yes.....1  
 No.....0

Variable Name: Q14

Tape Position: 87-88

Codes: 01 Yes  
 00 No  
 -1 Missing or Uncodable

- 15 Suppose a new enlistee were unhappy with military life. How easy or difficult do you think it would be for him (or her) to get out of the military before the end of the enlistment period that he (or she) signed up for?

Mark One

Very easy.....1  
Fairly easy.....2  
Somewhat difficult.....3  
Very difficult.....4  
Almost impossible.....5

Variable Name: Q15

Tape Position: 89-90

Codes: 01-05 As Above  
-1 Missing or Uncodable

II. FACTS ABOUT YOU

16 Are you male or female?

Male.....1  
Female.....2

Codes: 01-60 See List Above  
-1 Missing or uncodable

Variable Name: Q21C

Tape Position: 116-117

Codes: 01-60 See List Above  
-1 Missing or uncodable

Note: Optical scanning form provided coding "bubbles"  
next to the name of each location or foreign  
country for each part of the question; e.g.,

<input type="checkbox"/> A	<input type="checkbox"/> B	<input type="checkbox"/> C	Alabama
<input type="checkbox"/> A	<input type="checkbox"/> B	<input type="checkbox"/> C	Alaska

- 22 What COUNTY were you living in when you decided to enlist?  
Write the name of the county in the space below.

COUNTY| \_\_\_\_\_

I don't know the name of the county.....-8

Variable Name: Q22

Tape Position: 118-119

Codes: -8 Doesn't Know County  
-3 Blank, see Note

Note: Optical scanning process could not distinguish between questionnaires on which the County was written in and those which were left blank by the respondent. A code of -3 therefore simply indicates that the respondent did not mark the "Don't Know" category. This item could be used in a manual verification of Zip Codes (Q23) or as a method of filling in missing values of Q.23.

- 23 What is the ZIP CODE of the place where you were living when you  
decided to enlist? RECORD ZIP CODE-in the box to the right.

ZIP CODE

--	--	--	--	--

I don't know the Zip Code.....-8

Variable Name: Q23

Tape Position: 120-124

Codes:  
00000-99999 Zip Code  
-8 Don't Know  
-1 Missing or uncodable  
-4 Incomplete or out of range data entered by R

24 Who were you living with when you were 14 years old?  
(Mark all that apply)

EXAMPLE: If you lived with your mother and stepfather, mark  
1 and 4.

My own mother.....1  
My own father.....1  
My stepmother.....1  
My stepfather.....1  
Grandparent(s).....1  
Other male relative (adult).....1  
Other female relative (adult).....1  
Persons not related to me.....1

IF YOU WERE LIVING WITH BOTH YOUR OWN MOTHER AND FATHER, GO  
TO Q.25.

Variable Names:

Q24A	Mother	125-126
Q24B	Father	127-128
Q24C	Stepmother	129-130
Q24D	Stepfather	131-132
Q24E	Grandparent(s)	133-134
Q24F	Other Male Relative	135-136
Q24G	Other Female Relative	137-138
Q24H	Persons Not Related	139-140

Tape Positions:

Codes: 01 Yes  
-1 Missing or uncodable  
00 Not Marked

Note: In processing items which ask the respondent to "Mark all that Apply", each response category is treated as a separate variable, Code 01 indicates that the response category was marked and Code 00 indicates that the specific response category was not marked but that another category in the series was marked. Code -1 Missing, is assigned only in those cases where the respondent left all the response categories of the question blank.

NOTE: QUESTION 24A(1) WAS NOT ANSWERED BY ALL RESPONDENTS.  
SEE QUESTION 24 FOR SKIP INSTRUCTIONS.

IF YOU WERE NOT LIVING WITH BOTH YOUR OWN MOTHER AND FATHER,  
ANSWER A.

A Why didn't you live with both your own parents?

Mark One

One or both parents died.....1  
Parents were divorced.....2  
Parents were separated.....3  
Father was away in the  
military.....4  
One or both parents were  
in an institution.....5  
Other.....6

Variable Name: Q24A1

Tape Position: 141-142

Codes: 01-06 As Above  
-1 Missing or uncodable  
-3 Not Applicable, i.e., living with own parents

25 Who are you living with now?

Mark All That Apply

My own mother.....1  
 My own father.....1  
 My stepmother.....1  
 My stepfather.....1  
 Grandparent(s).....1  
 Other relative(s).....1  
 My spouse.....1  
 My inlaws.....1  
 Person(s) not related to me.....1  
 By myself.....1

Variable Names:

Flags: F25A

Tape Positions:

Q25A	Mother	143-144
Q25B	Father	145-146
Q25C	Stepmother	147-148
Q25D	Stepfather	149-150
Q25E	Grandparent(s)	151-152
Q25F	Other Relatives	153-154
Q25G	Spouse	155-156
Q25H	Inlaws	157-158
Q25I	Unrelated Person(s)	159-160
Q25J	Myself	161-162

Codes: 01 Yes  
 -1 Missing or uncodable  
 00 Not Marked

See Note: Q24A-24H.

26 When did you last live with parents, guardians or other relatives? Mark month and year below.

I live with them now.....1

MONTH	YEAR
January..... 01	1979..... 79
February..... 02	1978..... 78
March..... 03	1977..... 77
April..... 04	1976..... 76
May..... 05	1975..... 75
June..... 06	1974..... 74
July..... 07	1973..... 73
August..... 08	1972..... 72
September.... 09	1971..... 71
October..... 10	1970..... 70
November..... 11	Before 1970.. 69
December..... 12	

Variable Name: Q26A                      Flag: F26A      Tape Position: 163-164

Codes: 01 Live With Parents Now  
 00 Does Not Live With Parents  
 -1 Missing or uncodable

Note: R was coded as not living with parents, i.e., Q26A = 00 if valid codes were entered in Q26C and the "bubble" next to "I live with them now" was left blank.

Variable Name: Q26B (Month)    165-166

Codes: 01-12 January-December  
 -1 Missing or uncodable  
 -3 Not Applicable, i.e., Q26A = 01

Variable Name: Q26C (Year)    167-168

Codes: 79-69 Year  
 -1 Missing or uncodable  
 -3 Not Applicable, i.e., Q26A = 01

Note: If more than one year marked, lowest number selected.  
 If lowest selected, XV8=1, tape position 601.

27 In all, how many states and foreign countries have you  
ever lived in? Mark One Number Below.

1 2 3 4 5 6 7 8 9 or more

Variable Name: Q27

Tape Position: 169-170

Codes: 01-08 No. of States and Countries  
09 More Than 9 States and Countries  
-1 Missing or uncodable

IV. YOUR EDUCATION

28 Are you now enrolled in regular school, that is, high school or college?

Mark One

Yes, I now attend full time.....1 (GO TO Q.29)

Yes, I now attend part time.....2 (GO TO Q.29)

No, I don't attend school now...0 (ANSWER A AND B)

Variable Name: Q28

Tape Positon: 171-172

Codes: 01 Yes, Full Time  
 02 Yes, Part Time  
 00 No  
 -1 Missing or uncodable

NOTE: QUESTIONS 28A AND 28B ARE NOT ANSWERED BY ALL RESPONDENTS.  
 SEE QUESTION 28 FOR SKIP INSTRUCTIONS.

A When did you last attend regular school?

MONTH	YEAR
January..... 01	1979..... 79
February..... 02	1978..... 78
March..... 03	1977..... 77
April..... 04	1976..... 76
May..... 05	1975..... 75
June..... 06	1974..... 74
July..... 07	1973..... 73
August..... 08	1972..... 72
September.... 09	1971..... 71
October..... 10	1970..... 70
November..... 11	Before 1970.. 69
December..... 12	

Variable Name: Q28A1 (Month)

Tape Position: 173-174

Codes: 01-12 January-December  
 -1 Missing or uncodable  
 -3 Not Applicable, i.e., in school

Variable Name: Q28A2 (Year)

Tape Position: 175-176

Codes: 79-70 Year,  
 69 Before 1979-1970  
 -1 Missing or uncodable  
 -3 Not Applicable, i.e., in school

Note: If more than one year marked, lowest year selected.  
 If lowest year selected XV9=1, tape position 602.

B Were you attending school full time or part time?

Mark One

Full time.....1

Part time.....2

Variable Name: Q28B

Tape Position: 177-178

Codes: 01 Full Time  
 02 Part Time  
 -1 Missing or uncodable  
 -3 Not Applicable, i.e., in school

29 WHEN YOU ENTER ACTIVE DUTY, what is the highest grade or year of regular school you will have COMPLETED? (If you have a GED, mark the last grade you completed in regular school.)

ELEMENTARY: 1 2 3 4 5 6 7 8

HIGH SCHOOL: 9 10 11 12

YEARS OF COLLEGE: 1 2 3 4 5 6 7 8 or more

Variable Name: Q29

Flag: F29

Tape Position: 179-180

Codes: 01-08 Elementary  
 09-12 High School (1-4 Years)  
 13-20 College Credit (1-8 Years)  
 -1 Missing or uncodable

Note: If more than one grade marked, highest selected.  
 If highest selected, XV10=1, tape position 603.

30 When I enter active duty, the highest degree or diploma I will have is:

Mark One

- A B.A. or B.S. degree.....1 (GO TO Q.33)
- Associate degree (A.A.)  
from a Junior College.....2 (GO TO Q.33)
- A high school diploma.....3 (GO TO Q.33)
- A GED Certificate.....4 (ANSWER Q.31 AND 32)
- None of the above.....5 (ANSWER Q.31 AND 32)

Variable Name: Q30

Tape Position: 181-182

Codes: 01-05 As Above  
-1 Missing or uncodable

Note: If more than one degree marked, highest selected.  
If highest selected, XV11=1, tape position 604.

NOTE: QUESTIONS 31 AND 32 ARE NOT ANSWERED BY ALL RESPONDENTS  
(RESPONDENTS WITH A BA, BS DEGREE, AN ASSOCIATE DEGREE  
OR A HIGH SCHOOL DIPLOMA DO NOT ANSWER THESE QUESTIONS).  
SEE QUESTION 30 FOR SKIP INSTRUCTIONS.

31 Why did you decide not to finish high school?

Mark All That Apply

- A. My family needed money or needed me at home.....1
- B. I was expelled or suspended.....1
- C. I found a job I liked.....1
- D. I was bored, wasn't learning anything useful.....1
- E. I got married or had a child.....1
- F. I was getting bad grades.....1
- G. I didn't get along with the other students.....1
- H. The rules were too strict.....1
- I. I wasn't going to graduate on time.....1
- J. I didn't get along with the teachers, counselors or principal.....1
- K. I wanted to work full time.....1

Variable Names:

Tape Positions:

Q31A	Needed Money	183-184
Q31B	Expelled	185-186
Q31C	Found Job	187-188
Q31D	Bored	189-190
Q31E	Married	191-192
Q31F	Bad Grades	193-194
Q31G	Other Students	195-196
Q31H	Strict Rules	197-198
Q31I	Late Graduation	199-200
Q31J	Teachers	201-202
Q31K	Work Full Time	203-204

Codes: 00 Not Marked  
01 Yes  
-1 Missing or uncodable  
-3 Not Applicable, i.e. finished high school

Note: In processing items which ask the respondent to "Mark all that Apply", each response category is treated as a separate variable, Code 01 indicates that the response category was marked and Code 00 indicates that the specific response category was not marked but that another category in the series was marked. Code -1 Missing, is assigned only in those cases where the respondent left all the response categories of the question blank.

32 Which of the reasons in Q.31 was the MOST IMPORTANT REASON why you decided not finish high school? MARK ONE LETTER BELOW.

MOST IMPORTANT REASON

A B C D E F G H I J K

Variable Name: Q32

Flag: F32

Tape Position: 205-206

Codes: 01=A  
02=B  
03=C  
04=D  
05=E  
06=F  
07=G  
08=H  
09=I  
10=J  
11=K  
-1 Missing or uncodable  
-3 Not Applicable, i.e., finished high school

Note: See Variables Q31A-Q31K for definitions of letter codes.

33 Does (did) your high school have a special test that you must pass in order to get a high school diploma?

Yes.....1 (ANSWER A)  
No.....0 (GO TO Q.34)  
Don't know.....-8 (GO TO Q.34)

Variable Name: Q33

Tape Position: 207-208

Codes: 01 Yes  
00 No  
-8 Don't Know  
-1 Missing or uncodable

NOTE: QUESTION 33A IS NOT ANSWERED BY ALL RESPONDENTS. SEE  
QUESTION 33 FOR SKIP INSTRUCTIONS.

A Did you pass this special test?

Yes.....1  
No.....0  
I haven't taken  
it yet.....2  
I haven't been  
told if I passed...3

Variable Name: Q33A

Tape Position: 209-210

Codes: 01 Yes  
00 No  
02 Haven't Taken  
03 Not Told if Passed  
-1 Missing or uncodable  
-3 Not Applicable, i.e., no special test

34 How would you describe the grades you make now (or were  
making when you were last in school)?

Mark One

Mostly A.....1  
About half A and half B.....2  
Mostly B.....3  
About half B and half C.....4  
Mostly C.....5  
About half C and half D.....6  
Mostly D.....7  
Mostly below D.....8

Variable Name: Q34

Tape Position: 211-212

Codes: 01-08 As Above  
-1 Missing or uncodable

35 Have you ever attended a vocational, technical or business school?

No.....0 (GO TO Q.36)

Yes.....1 (ANSWER A)

Variable Name: Q35

Tape Position: 213-214

Codes: 00 No  
01 Yes  
-1 Missing or uncodable

NOTE: QUESTION 35A IS NOT ANSWERED BY ALL RESPONDENTS. SEE  
QUESTION 35 FOR SKIP INSTRUCTIONS.

A Did you complete your course?

Yes.....1

No.....0

Variable Name: Q35A

Tape Position: 215-216

Codes: 01 Yes  
00 No  
-1 Missing or uncodable  
-3 Not Applicable, i.e., did not attend voc/tech./  
business school

36 What is the highest grade or year o. regular school you think you will ever complete in the future? (If your highest grade will be a GED Certificate, mark 12.) Mark One Below.

ELEMENTARY: 1 2 3 4 5 6 7 8

HIGH SCHOOL: 9 10 11 12

YEARS OF COLLEGE: 1 2 3 4 5 6 7 8

Variable Name: Q36

Flag: F36

Tape Position: 217-218

Codes: 01-08 Elementary  
09-12 High School (1-4 Years)  
13-20 College Credit (1-8 Years)  
-1 Missing or uncodable

Note: If more than one grade marked, highest selected.  
If highest selected, XV 12=1, tape position 605.

IV. MARRIAGE AND CHILDREN

NOTE: QUESTIONS IN THIS SECTION ARE NOT ANSWERED BY ALL RESPONDENTS, DEPENDING ON RESPONSE TO QUESTION 37 (MARITAL STATUS).

- IF MARRIED, RESPONDENTS SHOULD ANSWER: 37, 38, 39, 39A, 40, 41.
- IF MARRIED AND SPOUSE IN MILITARY, RESPONDENTS SHOULD ANSWER: 37, 38, 39, 40, 41.
- IF SINGLE, SEPARATED, DIVORCED OR WIDOWED, RESPONDENTS SHOULD ANSWER 37, 37A, 37B, 40, 41.

37 I am now:

Mark One

Married.....1 (GO TO Q. 38)  
 Single, never married.....2 (ANSWER A AND B)  
 Separated.....3 (ANSWER A AND B)  
 Divorced.....4 (ANSWER A AND B)  
 Widowed.....5 (ANSWER A AND B)

Variable Name: Q37

Flag: F37

Tape Position: 219-220

Codes: 01-05 As Above

-1 Missing or uncodable

A Are you engaged to be married?

Yes.....1  
 No.....0

Variable Name: Q37A

Flag: F37A

Tape Position: 221-222

Codes: 01 Yes

00 No

-1 Missing or uncodable

-3 Not Applicable, i.e., married

B How many years from now would you like to get married (or remarried)?

In less than a year.....00

1 year 2 years 3 years 4 years 5 years

6 years 7 years 8 years 9 years 10 years

I don't know.....-8

I don't plan to get married (or remarried).....-7

\*\*\* IF YOU ARE NOT MARRIED NOW, GO TO Q.40 \*\*\*

Variable Name: Q37B

Tape Position: 223-224

Codes:	00	Less Than Year
	01-10	1-10 Years
	-7	Don't Plan To Marry
	-8	Don't Know
	-1	Missing or uncodable
	-3	Not Applicable, i.e., married

38 How long have you been married to your current spouse?

Mark One

Less than 6 months.....1

6 months to 1 year.....2

More than 1 year, but

less than 2.....3

More than 2 years, but

less than 3.....4

Three years or more.....5

Variable Name: Q38

Tape Position: 225-226

Codes:	01-05	As Above
	-1	Missing or uncodable
	-3	Not Applicable, i.e., not married

39 Is your spouse now on active duty in the military?

Yes.....1 (GO TO Q.40)  
No.....0 (ANSWER A)

Variable Name: Q39

Tape Position: 227-228

Codes: 01 Yes  
00 No  
-1 Missing or uncodable  
-3 Not Applicable, i.e., not married

A. Does your spouse plan to enlist in the military in  
the next 12 months?

Yes.....1  
No.....0

Variable Name: Q39A

Tape Position: 229-230

Codes: 00 Not planning  
01 Yes planning  
02 Spouse in military  
-1 Missing or uncodable  
-3 Not Applicable, i.e., not married

Note: Code 02, Spouse in Military, was assigned if R is  
married, marked Q39=01 and left Q39A blank. Code -3  
not applicable, was assigned if R is not married  
Q37 = 02-05 and this item is blank.

40 How many children do you have now? Mark Number Below.

None 1 2 3 4 5 or more

Variable Name: Q40

Tape Position: 231-232

Codes: 00-04 0-4 Children  
05 5 or More Children  
-1 Missing or uncodable

41 In all, how many children do you expect to have? (Mark One)

I don't know if I will have children.....-8

None 1 2 3 4 5 or more  
(0)

Variable Name: Q41

Flag: F41

Tape Position: 233-234

Codes: 00-04 0-4 Children  
05 5 or More Children  
-8 Don't Know  
-1 Missing or uncodable

V. WORKING AND JOBS

42 Different people want different things from a job. How important is each of these things to you?

	Not Important	Somewhat Important	Very Important
A. A job that has lots of physical work	1	2	3
B. A job that is steady, no chance of being laid off	1	2	3
C. A job where I don't have to take a lot of responsibility	1	2	3
D. A job that uses mental skills	1	2	3
E. A job where I can make a lot of money	1	2	3
F. A job where I can work with people	1	2	3
G. A job that uses mechanical skills	1	2	3
H. A job where I can be my own boss	1	2	3
I. A job where I don't have to get dirty	1	2	3
J. A job that is looked up to by others	1	2	3

## Variable Names:

Q42A Physical Work  
 Q42B Steady Work  
 Q42C No Responsibility  
 Q42D Mental Skills  
 Q42E Money  
 Q42F Work with People  
 Q42G Mechanical Skills  
 Q42H Own Boss  
 Q42I Not Dirty  
 Q42J Looked Up To

## Tape Positions:

235-236  
 237-238  
 239-240  
 241-242  
 243-244  
 245-246  
 247-248  
 249-250  
 251-252  
 253-254

Codes: 01 Not Important  
 02 Somewhat Important  
 03 Very Important  
 -1 Missing or uncodable

43 Which of the things in Q.42 is MOST IMPORTANT TO YOU in a job?

MOST IMPORTANT

A B C D E F G H I J

Variable Name: Q43

Flag: F43

Tape Position: 255-256

Codes: 01=A  
 02=B  
 03=C  
 04=D  
 05=E  
 06=F  
 07=G  
 08=H  
 09=I  
 10=J  
 -1 Missing or uncodable

Note: See Variables Q42A-Q42J for definition of letter codes.

44 Since you were 16 years old, have you ever had a full time or part time job?

No.....0 (GO TO Q.55)

Yes.....1 (ANSWER Q.45-54)

Variable Name: Q44

Tape Position: 257-258

Codes: 00 No  
01 Yes  
-1 Missing or uncodable

NOTE: QUESTIONS 45-54 WERE NOT ANSWERED BY ALL RESPONDENTS.  
RESPONDENTS WHO HAVE NEVER HAD A FULL-TIME OR PART-TIME JOB  
DO NOT ANSWER THESE QUESTIONS.

45 Since you were 16 years old , have you had a job where you worked 30 HOURS PER WEEK OR MORE?

Yes.....1

No.....0

Variable Name: Q45

Flag: F45

Tape Position: 259-260

Codes: 01 Yes  
00 No  
-1 Missing or uncodable  
-3 Not Applicable

Note: Code -3, Not Applicable in Q45, Q46, Q47, Q48A and Q48B, Q49, Q50, Q51, Q52, Q53, Q54 indicates that R did not have a full time or part time job since age 16.

46 Since you were 16 years old, how many different employers have you worked for?

1 2 3 4 5 or more

Variable Name: Q46

Tape Position: 261-262

Codes: 01-04 1-4 Employers  
 05 5 or More Employers  
 -1 Missing or uncodable  
 -3 Not Applicable

NOTE: QUESTION 47 IS NOT ANSWERED BY ALL RESPONDENTS. SEE QUESTION 47 FOR SKIP INSTRUCTIONS. (ALSO SEE NOTE AT QUESTION 45).

\*\*\* IF YOU HAVE HAD ONLY ONE EMPLOYER, GO TO Q.48. \*\*\*

47 Below are some reasons people have for leaving jobs. Since you were 16 years old, have you ever left a job for any of these reasons?

I LEFT A JOB BECAUSE: (Mark all that apply)

- A. I got sick.....1
- B. I was fired.....1
- C. The pay was not good.....1
- D. I was laid off.....1
- E. The rules were too strict.....1
- F. I didn't get along with my  
co-workers.....1
- G. I moved to another location.....1
- H. I didn't get along with my  
supervisor.....1
- I. I got married.....1
- J. There was no chance to get ahead.....1
- K. The work was too hard.....1
- L. The working conditions were  
bad (dangerous, hot, dusty,  
noisy, etc.).....1
- M. I went back to school.....1

## Variable Names:

Q47A Sick  
 Q47B Fired  
 Q47C Bad Pay  
 Q47D Laid Off  
 Q47E Strict Rules  
 Q47F Co-workers  
 Q47G Moved  
 Q47H Supervisor  
 Q47I Married  
 Q47J No Chance Advancement  
 Q47K Work Too Hard  
 Q47L Bad Conditions  
 Q47M Back to School

## Tape Positions:

263-264  
 265-266  
 267-268  
 269-270  
 271-272  
 273-274  
 275-276  
 277-278  
 279-280  
 281-282  
 283-284  
 285-286  
 287-288

Codes: 00 Not Marked  
 01 Yes, Marked Reason  
 02 Had Only One Employer  
 -1 Missing  
 -3 Not Applicable (see Note Q45)

48 QUESTIONS 48 - 54 ARE ABOUT THE JOB YOU HAVE NOW OR THE JOB YOU HAD THE LAST TIME YOU WORKED.

When did you start working at this job?

MONTH	YEAR
January..... 01	1979..... 79
February..... 02	1978..... 78
March..... 03	1977..... 77
April..... 04	1976..... 76
May..... 05	1975..... 75
June..... 06	1974..... 74
July..... 07	1973..... 73
August..... 08	1972..... 72
September.... 09	1971..... 71
October..... 10	1970..... 70
November..... 11	Before 1970.. 69
December..... 12	

Variable Name: Q48A (Month)      Flag: F48A      Tape Position: 289-290

Codes: 01-12 January-December  
-1 Missing or uncodable  
-3 Not Applicable, (See note, Q45)

Variable Name: Q48B (Year)      Flag: F48A      Tape Position: 291-292

Codes: 79-70 Year, 1979-1970  
69 Year, Before 1970  
-1 Missing or uncodable  
-3 Not Applicable, (See Note, Q.45)

Note: If more than one year marked, lowest number selected.  
If lowest number selected XV13=1, tape position 606.

49 What kind of work do (or did) you do, that is, what is (was) your job called? (For example: stock clerk, electrician's helper, cook, delivery man.) Write the name of your job in the space below.

YOUR JOB

---

---

Variable Name: Q49

Tape Position: 293-295

Codes: Blank

Note: Data Not Coded.

- 50 What kind of place do (or did) you work for? (For example: TV and radio manufacturing, grocery store, restaurant, shoe store.) Write the kind of place in the space below. Do not write the name of the company.

KIND OF PLACE OF EMPLOYMENT

\_\_\_\_\_

\_\_\_\_\_

Variable Name: Q50

Tape Positon: 296-298

Codes: Blank

Note: Data Not Coded.

- 51 How many hours per week do (or did) you usually work at this job?

HOURS PER WEEK

Variable Name: Q51

Tape Position: 299-300

Codes: 01-80 Number Hours Worked  
-1 Missing or uncodable  
-3 Not Applicable  
-4 Incomplete or out of range data entered by R

52 About how much do (did) you earn per hour at this job?

	DOLLARS		CENTS		
\$	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	PER HOUR

Variable Name: Q52

Tape Position: 301-304

Codes: 0100-1000 Hourly Earnings, \$01.00-\$10.00  
 -1 Missing or uncodable  
 -3 Not Applicable (See Note Q45)  
 -4 Incomplete or out of range data entered by R

53 When did this job end?

I work at this job now.....01 (GO TO Q.55)

MONTH		YEAR	
January.....	01	1979.....	79
February.....	02	1978.....	78
March.....	03	1977.....	77
April.....	04	1976.....	76
May.....	05	1975.....	75
June.....	06	1974.....	74

November.....	11	Before 1970..	69
December.....	12		

Variable Name: Q53

Tape Position: 305-306

Codes: 01 Works at Job Now  
 00 Job Ended, date provided  
 -1 Missing or uncodable  
 -3 Not Applicable (See Note, Q.45)

Note: A code of 00 was assigned if R indicated that s/he had worked (Q44=01), left Q53= blank and either provided data in Q53A and Q53B or just in Q53B.

Variable Name: Q53A (Month)      Flag: F53A      Tape Position: 307-308

Codes: 01-12    January-December  
13      Working now  
-1      Missing or uncodable  
-3      Not Applicable (See Note, Q.45)

Note: Code 13, Working now, was assigned to individuals who have had full or part time jobs (Q44=01), marked the "bubble" next to "I work on this job now", (Q53=01) and who left Q53A blank. Code -3, Not Applicable means that R did not have a full or part time job since age 16 (Q44 = 00) and left Q53A blank.

Variable Name: Q53B (Year)      Flag: F53A      Tape position: 309-310

Codes: 79-70    Year, 1979-1970  
69      Year, Before 1970  
13      Working now  
-1      Missing or uncodable  
-3      Not Applicable (See Note, Q.45)

Note: If more than one year marked, lowest selected.  
If lowest selected XV14=1, tape position 607  
Also see note - Q53A.

NOTE: THIS QUESTION WAS NOT ANSWERED BY ALL RESPONDENTS. IN ADDITION TO THOSE WHO HAD NEVER HAD A FULL- OR PART-TIME JOB, RESPONDENTS WHO WERE CURRENTLY WORKING DID NOT ANSWER THIS QUESTION. SEE SKIP INSTRUCTIONS QUESTION 53.

54 Why did you leave this job? (Mark all that apply.)

- A. I got sick.....1
- B. I was fired.....1
- C. The pay was not good.....1
- D. I was laid off.....1
- E. The rules were too strict.....1
- F. I didn't get along with my  
co-workers.....1
- G. I moved to another location.....1
- H. I didn't get along with my  
supervisor.....1
- I. I got married.....1
- J. There was no chance to get ahead.....1
- K. The work was too hard.....1
- L. The working conditions were  
bad (dangerous, hot, dusty,  
noisy, etc.).....1
- M. I went back to school.....1

Codes: 1 Highest/Lowest logic applied  
 0 Logic not required

Note: For a subset of items, the contractor was provided with instructions for resolving respondent multiple entries. If only one response was required but the respondent marked two, the contractor coded either the highest or lowest value, depending on the item. Whenever the multiple logic instruction was used, a code was set in one of the above variables, XV6-XV20.

## Appendix A

ADMINISTRATION DATES AND NUMBER OF RESPONDENTS SURVEYED

The survey period for the 1979 Survey of Personnel Entering Military Service was defined as 20 consecutive working days following the receipt of survey materials. This period was to include any Saturdays the AFEES was in operation. The first day of the survey period was to be defined as a full working day. For example, if materials were received in mid-morning, administration was to begin the next day. As a result of shipment problems, combined with operational problems at some of the AFEES, the starting date varied by as much as a month.

Table A shows, by AFEES, the starting and ending dates of survey administration, together with the total number of days on which data was collected. In assembling this information, two sources of information were used. First, a Survey Record Form submitted by each AFEES as part of the return shipment of questionnaires contained administration dates. Second, the actual questionnaires asked respondents to record the date on which the survey was completed. In calculating the number of days, Saturdays were only counted if a questionnaire was received which included the date of a Saturday within the survey period.

The number of questionnaires reflects the actual number of completed instruments received by the Defense Manpower Data Center (DMDC), excluding those which have been deleted as having been completed by an individual who was either entering the Army Reserve or who had prior military service. Blank questionnaires or questionnaires marked as "refused" have also been excluded from the table.

The differences between the number of Form 1 and Form 2 questionnaires returned by each AFEES is the result of excluding questionnaires completed by ineligible respondents and questionnaires marked "refused." In the actual shipments received by the AFEES,

the two forms were alternated; i.e., equal numbers of each form were sent.

The AFEES identification number was added to each questionnaire as part of the processing at DMDC. Questionnaires without identifiers were either mismarked at DMDC or received in a shipment without an AFEES identification.

## Appendix B

CROSS-REFERENCE OF FORM 1 QUESTIONNAIRE TO FORM 2,  
FORM 3 AND FORM 4 QUESTIONNAIRES

As indicated in Section III, the 1979 AFEES Survey is composed of a set of four questionnaires: Forms 1 and 2 were administered in Wave 1 (Spring) and Forms 3 and 4 were administered in Wave 2 (Fall).

In addition to a set of items common to all four forms, items related to different policy issues were clustered in questionnaire pairs. Items designed to collect detailed information about the enlistment process were clustered in Forms 1 and 3. Items identified as possible predictors of attrition, together with items asked specifically of female enlistees, were clustered in Forms 2 and 4.

This appendix allows the user to determine the question number(s) for items in Form 1 which also appear on one of the other forms. It is an ordered listing of every item in Form 1, i.e., in the same order as the questionnaire in Section V, together with precise question referents to the other three questionnaires, i.e., to Forms 2, 3, and 4. In using this appendix, the user should not assume that the response codes assigned to questions which have been cross-referenced are identical. Although in most cases they are the same across forms, before comparing actual data the codebooks should be consulted. The notes appended to the end of the cross-reference listing alert the user to some of these differences.

Table B

CROSS-REFERENCE OF FORM 1 QUESTIONNAIRE  
TO FORM 2, 3, AND 4 ITEMS

Variable Name					
Form 1(a)	Form 2	Form 3	Form 4	Item Description	
XV1	XV1	XV1	XV1	Form Code	
XV2	XV2	XV2	XV2	Intran Process Number	
E1	B1	1A	1A	Survey month	
E2	B2	1B	1B	Survey day	
	1	2	2	Service	
2	2	3	3	Survey eligibility	
3	3	4A	4A	Shipping out today	
3A1	3A1	4B1	4B1	Month entering active duty	
3A2	3A2	4B2	4B2	Day entering active duty	
3A3	3A3	4B3	4B3	Year entering active duty	
3B	3B		4C	Reason for delayed entry	
4	4	5A	5	Years of active duty(b)	
5		5B		Alternative to two year enlist	
6		6		Total military obligation	
7		7		Entry pay grade	
8		8		Pay grade in one year	
9	5	9	6	Monthly basic pay	
10		10		Enlist for less pay	
11A	6K	11A	7K	Reasons--couldn't find civilian job	
11B	6J	11B	7J	Reasons--get away from home	
11C	6I	11C	7I	Reasons--better myself	
11D	6H	11D	7H	Reasons--travel	
11E	6G	11E	7G	Reasons--get away from personal problem	
11F	6F	11F	7F	Reasons--serve my country	
11G	6E	11G	7E	Reasons--earn more money	
11H	6D	11H	7D	Reasons--family tradition	
11I	6C	11I	7C	Reasons--prove I can make it	
11J	6B	11J	7B	Reasons--get training	
11K	6A	11K	7A	Reason--money for college

Table B (Continued)

CROSS-REFERENCE OF FORM 1 QUESTIONNAIRE  
TO FORM 2, 3, AND 4 ITEMS (Continued)

Variable Name					Item Description
Form 1(a)	Form 2	Form 3	Form 4		
81A		106A			If ineligible which other serv.-- Army
81B		106B			If ineligible which other serv.-- Navy
81C		106C			If ineligible which other serv.-- Air Force
81D		106D			If ineligible which other serv.-- Marines
81E		106E			If ineligible no other service
82		107			Plan to re-enlist
83		108			Expected total years active duty
84	92	109	95		Expected satisfaction
85	103	110	106		Time ended
XV4	XV4	XV4	XV3		Minutes for completion
XV5	XV5	XV5	XV4		AFEEES

(a) The first column of this table is the base questionnaire, i.e., Form 1, against which variables in other forms have been sorted.

(b) Response categories for Form 1 differ slightly from the other three forms.

(c) Wording of item on Form 1 is slightly different from the other forms.

(d) Wording of item on Forms 1 and 2 is slightly different from Forms 3 and 4.

(e) Bonus amounts used in Form 1 differ from those in Form 3.

(f) Occupations and industries have not been coded. At the present time, they are English language entries on the hard-copy questionnaires stored at the Defense Manpower Data Center.

## Appendix C

CROSS-REFERENCE OF FORM 2 QUESTIONNAIRE TO FORM 1,  
FORM 3 AND FORM 4 QUESTIONNAIRES

As indicated in Section III, the 1979 AFES Survey is composed of a set of four questionnaires: Forms 1 and 2 were administered in Wave 1 (Spring) and Forms 3 and 4 were administered in Wave 2 (Fall).

In addition to a set of items common to all four forms, items related to different policy issues were clustered in questionnaire pairs. Items designed to collect detailed information about the enlistment process were clustered in Forms 1 and 3. Items identified as possible predictors of attrition, together with items asked specifically of female enlistees, were clustered in Forms 2 and 4.

This appendix allows the user to determine the question number(s) for items in Form 2 which also appear on one of the other forms. It is an ordered listing of every item in Form 2, i.e., in the same order as the questionnaire in Section VI, together with precise question referents to the other three questionnaires, i.e., to Forms 1, 3, and 4. In using this appendix, the user should not assume that the response codes assigned to questions which have been cross-referenced are identical. Although in most cases they are the same across forms, before comparing actual data the codebooks should be consulted. The notes appended to the end of the cross-reference listing alert the user to some of these differences.

TABLE C  
CROSS-REFERENCE OF FORM 2 QUESTIONNAIRE  
TO FORM 1, 3, AND 4 ITEMS

Variable Name					
Form 1	Form 2(a)	Form 3	Form 4	Item Description	
XV1	XV1	XV1	XV1	Form Code	
XV2	XV2	XV2	XV2	Intran Process Number	
B1	B1	1A	1A	Survey month	
B2	B2	1B	1B	Survey day	
1	1	2	2	Service	
2	2	3	3	Survey eligibility	
3	3	4A	4A	Shipping out today	
3A1	3A1	4B1	4B1	Month entering active duty	
3A2	3A2	4B2	4B2	Day entering active duty
